

SUMMARY Experienced software developer with over a decade of hands-on development in enterprise systems across logistics, customer service, inventory, and government sectors. I recently completed a diploma in Information Technology to enhance my knowledge of modern development further. Proficient in the full Software Development Life Cycle (SDLC), object-oriented programming (Java, C#, VB.NET, Python, AJAX, JavaScript), and relational database systems. Skilled in debugging, process flow analysis, system implementation, and application support. Bilingual in English and Chinese, with strong communication and collaborative skills.

PROFESSIONAL SKILLS	Database & Data management	Programming Languages	Other Technologies
	• Oracle RDBMS • Microsoft SQL Server • MySQL • MongoDB • SQL • PL/SQL	• Java • C#.Net • Python • Visual Basic • FoxPro • C++ • PowerBuilder • Oracle Forms • Oracle Reports	• Android Studio • HTML • CSS • JavaScript • JSON • PHP • AJAX • PowerScript • Git • ServiceNow • Azure DevOps • Cisco • MS Office Suite • Process Flow Diagrams • SDLC

EXPERIENCE PROGRAMMER ANALYST | JAN 2024 – MAY 2025
Canadian Grain Commission – Winnipeg, Canada

- Contributed to the development and maintenance of in-house applications using PowerBuilder and PowerScript.
- Developed and executed SQL Server queries and stored procedures to support backend functionality.
- Conducted QA testing, created test plans, and tracked progress using Azure DevOps.
- Participated in sprint planning, collaborated with cross-functional teams, and documented enhancements.
- Assisted with troubleshooting and resolving system bugs and production support tickets.

ANALYST PROGRAMMER | MAY 2016 – SEP 2022

Yang Ming Line (H.K.) Ltd., Hong Kong

- Developed and maintained enterprise applications using C++, Java, and Oracle Forms & Reports.
- Implemented and optimized SQL queries and PL/SQL procedures in Oracle database environments.
- Designed and debugged process flow logic for core logistics and EDI systems.
- Created internal documentation and conducted staff training on new tools and features.

SYSTEM ANALYST | SEP 2011 – MAY 2016

A.S Watsons Industries, Hong Kong

- Designed mobile applications for sales ordering systems using UML and SDLC practices.
- Customized Oracle Forms/Reports to enhance order and inventory tracking functionality.
- Analysed client needs and implemented scalable solutions, increasing efficiency and sales.

PROJECTS/ASSIGNMENT

- Developed a desktop application using C#.NET to simulate a vehicle sale process. Implemented key modules including sales quoting, financing calculations, and invoicing functionalities.
- Designed and built a CRUD-based content management system using PHP and JavaScript. Integrated AJAX for asynchronous operations and JSON for efficient data exchange, enabling dynamic content creation, editing, and management.
- Built a Python app to scrape, store, and visualize historical weather data using HTMLParser, SQLite, and matplotlib, packaged with a Windows installer.

EDUCATION

Diploma in Business Information Technology Red River College Polytechnic. Winnipeg, Manitoba	2024
Bachelor of Science in Information Technology Swinburne University of Technology. Hong Kong	2005
Higher Diploma in Applied Statistics and Computing Hong Kong Institute of Vocational Education (Tsing Yi). Hong Kong	2000
