EDUCATION

McGill University, Canada

Expected Dec 2025

Bachelor's Degree of Science (BSc), **Major Mathematics and Computer Science**, Minor Linguistics

PROFESSIONAL EXPERIENCE

Quantitative Trading Intern

Istanbul, Türkiye

İş Investment

Jun 2025 – Aug 2025

- Supported Quant Trading desk (avg. \$120M daily volume) across SSFs, index futures, warrants, and options
- Developed, backtested, and refined latency/statistical arbitrage strategies in **Python & SQL**; one of which generated ~20% annualized returns in simulation and was implemented live
- Collaborated with traders and quants to analyze large market datasets, identify patterns, and generate insights
- Tracked desk **PnL** to evaluate strategy performance, monitor risk exposures, and optimize trading decisions

Quantitative Risk Summer Intern

London, UK

Crédit Agricole Corporate and Investment Bank

Jun 2024 – Aug 2024

- Automated validation process for **FX options** pricing models using **Python (Pandas, Numpy)**, reducing manual workload and increasing model review speed from ~5 hours to less than 1 hour
- Rebuilt 5+ Excel validation templates into modular Python scripts, decreasing runtime and ensuring long-term scalability
- Conducted detailed analysis and stress tests to verify robustness and reliability of new front-office models
- Reported directly to Head of Model Validation and maintained documentation to reflect evolving methodologies

Risk Consulting Summer Intern

Istanbul, Türkiye

Odifin

Jun 2023 – Aug 2023

- Identified pain points in client onboarding and redesigned training presentations to clarify key risk metrics, reducing training time by 25%
- Enhanced performance of a RoboAdvisory model built on Black-Litterman framework through advanced factor tau tuning and time series forecasting

LEADERSHIP

President of McGill Artificial Intelligence Society

Feb 2024 – Apr 2025

- Led a **17-member team**, managing operations and driving growth of one of McGill's largest student societies
- Secured **\$10K in sponsorships** and partnered with IBM, Morgan Stanley, and industry leaders to host workshops and networking events
- Recruited and trained a new executive team (40+ interviews), ensuring smooth leadership transition
- Launched Kernel program, fostering AI/ML research that produced publications and startup projects

Indigenous Outreach Through Digital Literacy

Jan 2025 – May 2025

- Designed and co-developed interactive Excel and PowerPoint workshops for incarcerated Indigenous women, aiming to build digital and data analysis skills using real-world datasets
- Coordinated lesson plans, created tailored datasets, and adapted materials to participant needs in a correctional setting

ADDITIONAL SKILLS

- **Programming Skills:** **Python** (Pandas, Numpy, pytorch, scikit-learn, etc.), Java, C, R, AWS, LaTeX, **SQL**
- **Computer Skills:** **Microsoft Excel**, Microsoft PowerPoint, Microsoft Word, backend @ HackHarvard
- **Languages:** Native bilingual proficiency in **English** and **Turkish**; intermediate working proficiency in **French**
- **Soft Skills:** Time-management, communication, detail-oriented, able to handle multiple tasks simultaneously, analytical, problem-solver, adaptable, collaborative, building lasting relationships, inclusive, strong integrity
