

CASSULE CAMILO JACINTO

22 John Street York ON M9N 0B1 | (263) 999-9700

| cassule.jacinto@gmail.com | www.linkedin.com/in/cassule/

Cybersecurity Investigator | SOC Analyst

A highly experienced cybersecurity and IT operations professional with over 15 years of expertise in securing critical financial infrastructure, conducting security assessments, and leading incident response. Proven track record in ensuring PCI/DSS compliance for a national payment network and managing security across complex, high-availability environments. Adept at problem-solving, collaborating across business lines, and communicating technical threats clearly to contain and remediate risks.

TECHNICAL SKILLS

- **Security Tools:** IDS/IPS, SIEM, Vulnerability Scanners (Nessus), Metasploit, Burp Suite, Wireshark
 - **Operating Systems:** Linux (Ubuntu, Kali, RHEL), Oracle Solaris, IBM AIX, Windows Server, macOS
 - **Cloud & Virtualization:** AWS (S3, EFS, SES , etc), Azure, VMware ESXi
 - **Languages & Scripting:** Python, Shell Scripting, SQL, PHP, C, Java
 - **Databases:** Oracle, MySQL, PostgreSQL, SQL Server (Securing, Administering, Hardening)
 - **Networking & Protocols:** TCP/IP, DNS, DHCP, NTP, TLS/SSL, SSH, IPSec, Active Directory
 - **Frameworks & Concepts:** PCI/DSS Compliance, Incident Response, Disaster Recovery, High Availability, Penetration Testing
-

PROFESSIONAL EXPERIENCE

Amazon Web Services (AWS) | Toronto, ON

Cloud Support Engineer | Dec 2024 – Present

- **Security Guidance & hardening:** Provided proactive and reactive security consultation for enterprise cloud infrastructure, focusing on data protection (S3, EFS, SES , storage Gateway, CloudFront , etc.) and secure access controls.
- **Incident Investigation:** Performed in-depth root cause analysis for security-related tickets involving IAM policies, bucket policies, and network access misconfigurations.

- **Incident Response:** Served as a key liaison in the incident management process, escalating complex security incidents to development teams and driving solutions to closure.

EMIS (Electronic Payments Interbank Consortium) | Luanda, Angola
Senior Oracle Database & System Administrator | 2009 – 2024

- **Security Monitoring & Investigation:** Assessed and enhanced the security posture of IT systems, reducing the impact of potential security incidents. Monitored security baselines across a multi-tenant environment for a national financial network processing millions of transactions.
- **Incident Response & Remediation:** Provided incident response, remediation, and system hardening for critical financial infrastructure and intrusion detection/prevention systems.
- **Access Management & Compliance:** Managed identity and access (IAM) through Active Directory, securing access to critical systems. Ensured annual PCI/DSS compliance for over a decade, securing payment systems for connections with VISA, MasterCard, and UnionPay.
- **Collaboration & Problem-Solving:** Collaborated with cross-functional teams and all Angolan banks on daily security operations and IT projects, ensuring alignment with business objectives and security policy.
- **System Management:** Supported and secured Oracle Solaris, Oracle Database, Storage, IBM AIX, Linux, and Windows environments in a high-availability, corporate setting.

Freelance IT Consultant (Select Clients) | Remote
Database & Linux System Administrator | 2008 – 2024

- **TISTECH (Finance Ministry):** Administered and secured critical databases and Linux systems.
- **SUPTECH (National Institute of Civil Aviation - INAVIC/ANAC):** Performed Linux system and database administration for a high-security government aviation authority.

EDUCATION & CREDENTIALS

📌 **Diploma, Cybersecurity Specialist | 2025**
 Herzing College, Toronto, ON

- *Focus: Hands-on Offensive & Defensive Security* GPA: 3.4/4.0

📌 **Cyber Security Micro-credential | 2024**
 Sheridan College, Toronto, ON

- *Focus: Hands-on Offensive & Defensive Security* | GPA: 3.9/4.0

Bachelor in Computer Science (don't graduate - Completed 3 years) 2010

Agostinho Neto University, Angola

Technical High School - Computers System Technician 2003-2006

Patricia Rossana College, Angola

- *Focus: Computer programming (C language, java , pascal , visual basic , html ,etc)*

Technical Certifications and trainings:

-  Proactively engage in Capture the Flag (CTF) challenges to practice and develop practical offensive and defensive security techniques
- Oracle Certified Expert Real Application Clusters 11g and Grid Infrastructure Administrator | completed in 2014
- Oracle Database 11g: Administration (1Z0-052) | completed in 2012
- LPI Linux Exam 101 | completed in 2011
- Oracle 11g: Performance Tuning Edition 2 | completed in 2015 | Location: India
- Oracle 11G: OCM (Oracle Certified Master) | completed in 2015 | Location: India
- Oracle Database 12c: Managing Multitenant Architecture Edition 1 | completed in 2016 | location: India
- Oracle Database 12c: Backup and Recovery Workshop Edition 2 | Completed in 2016 | Location: India
- Oracle Database 12c: Admin, Install and Upgrade Accelerated Edition 1 | Completed in 2016 | Location: India
- Oracle 11g: RAC and Grid Infrastructure Administration Accelerated 2 | Completed in 2013 | Location: Dubai
- LPI Linux 101 and 102 | Completed in 2011 | Location: Angola
- UNIX IBM AIX Training | Completed in 2011 | Location: Angola
 - IBM AIX 6 Jumpstart for UNIX Professionals
 - IBM AIX System P LPAR and Virtualization I: Planning and Configuration
 - IBM AIX 6 System Administration I: Problem Determination
 - IBM AIX 6 System Administration II: Problem Determination
- Symantec NetBackup 7.5 for UNIX Administration | Completed in 2013 | Location: Dubai
- Pure Storage Flash Array | Completed in 2021 | Location: Online
