EXPERIENCE

2015- Current

IT Technical Support Specialist - 247 Computer Solutions

- Provided technical support to clients via phone and email.
- Diagnosed hardware and software issues for timely resolution.
- Installed and configured computer systems and peripherals.
- Troubleshoot networking issues including LAN and WAN connectivity and slow performance issues.
- Diagnosed hardware failures in servers, workstations, laptops, printers, scanners.
- Provided technical assistance to end users on a variety of issues, including hardware and software related problems.
- Configured user accounts in Active Directory and other directory services platforms.
- Delivered local and remote Tier 1 IT support for hardware and software to company personnel.
- Delivered remote assistance for technical issues using screen sharing, mouse and keyboard control and other tools.
- Conducted remote diagnostics to identify and solve technical problems.

2013 - 2015

Technician - Geek Squad | North York, Ontario.

- Provided technical support via phone, chat, and in-store consultations.
- Repaired laptops, desktops, and mobile devices efficiently and accurately.
- Diagnosed hardware and software issues for customer devices.
- Installed operating systems and configured software applications for users.
- Educated customers on device maintenance and troubleshooting techniques.

2011 - 2013

Virtual Support Technician - Rogers Communications

- Provided technical support for customers via phone and online channels.
- Configured user accounts, passwords, file permissions, and email accounts as needed for client use.
- Walked customers through common phone hardware and software configurations to maximize service functionality.
- Tracked all open tickets in a ticketing system database with complete resolution details.
- Consulted via telephone to understand user problems, run through testing scripts and ask probing questions to locate root causes.

2008 - 2011

Technical Director - Netsupport | Markham Ontario.

- Directed a team of 20 technicians specializing in enterprise desktop management software. Orchestrated collaboration between U.S., U.K., and Canadian offices for software testing and support.
- Executed onsite installations and training for corporate clients like Riocan, TDSB, and the University of Toronto.
- Delivered onsite and phone technical support for all software, including Netsupport School, TCO, and Network Remote Control, facilitating software migration across large networks, and troubleshooting at Level 3.
- Led cross-functional teams to develop innovative software solutions.
- Oversaw installation activities by providing guidance to technicians as needed.
- Maintained technical documentation including diagrams, schematics, drawings and manuals.
- Managed code reviews to uphold software quality and maintain standards.
