Security Clearance: Secret

Language Skills:

- French, English

Platform/Language Skills:

- Python, SQL, Pandas, TensorFlow, PyTorch, Keras, Jupyter Notebook, Java, JavaScript, HTML, CSS, Bash, Git, Linux, Microsoft SQL Server, MySQL, Oracle, C, C++, C#, Go, Microsoft Windows, Azure, Google Cloud Platform, AWS, Web application development, .NET Core, React, Node.js, QA/QC, XML, JSON, Systems engineering, Computer networking, Software testing and others.

Education:

- 2021 - 2024 **Computer Engineering Technology - Graduated with Distinction (3.641 GPA - 91%)**
La Cité, Ottawa, Ontario
- 2019 - 2020 **Environmental Science Program**
University of Ottawa, Ottawa, Ontario
- 2019 **High School Diploma - Graduated**
École secondaire catholique L'Escale, Rockland, Ontario

Skills Profile:

Teamwork

- Building respectful relationships with others
- Being open and positively responsive to change
- Offering different ways to accomplish a task
- Adapting to group dynamics

Coding Performance Technical Skills:

- Proficient in Python, and SQL with expertise in libraries such as Pandas, TensorFlow, and PyTorch.
- Skilled in developing and deploying machine learning models for AI applications.
- Knowledgeable in data modeling techniques and languages.
- Familiar with scripting technologies like Python and R for automation and data analysis. - Competent in database management systems including Microsoft SQL Server and MySQL.
- Proficient in web development technologies such as HTML, CSS, and JavaScript.
- Experienced in Linux environment and Bash scripting.
- Proficient in version control with Git.
- Capable of working on well-defined projects with minimal supervision.
- Knowledge of agile software engineering methodologies.
- Able to develop strong relationships across the business through excellent customer service.
- Strong coding performance in general coding environments, demonstrating efficiency, accuracy, and adherence to best coding practices.

Analytical and Problem-Solving Skills:

- Ability to analyze technical requirements and develop comprehensive AI solutions.
- Proficient in identifying edge cases and potential issues in AI/ML models.
- Strong problem-solving skills with a keen attention to detail.
- Ability to adapt to evolving project requirements and challenges.

Professional Experience:2024 - 2025 **IT Developer (CS-01)***Canada Revenue Agency (CRA)*

112 Kent Tower B, Ottawa, Ontario

- Design, develop, and maintain IT solutions using Java (Struts2), JSP, XML, and Maven, supporting national CRA programs and external partners.
- Utilize Eclipse for development, pgAdmin for database management, and Data Studio for data analysis and reporting.
- Implement and maintain CI/CD pipelines using Jenkins, with code quality assurance through SonarQube and version control via Git.
- Deliver application enhancements and corrections by analyzing legacy code, identifying discrepancies, and implementing robust, scalable solutions.
- Develop and execute test plans, forecast expected results, and resolve discrepancies through root cause analysis, ensuring system reliability.
- Create and maintain technical documentation, including design specs, user guides, test cases, and training materials, ensuring clarity and accuracy.
- Provide technical assistance to colleagues and clients, translating complex technical issues into accessible language and offering actionable recommendations.
- Contribute to continuous improvement by identifying reusable components, evaluating emerging technologies, and enhancing internal procedures.
- Participate in peer reviews and structured walkthroughs to ensure deliverables meet objectives and comply with departmental IT standards.
- Maintain technical currency through ongoing learning and evaluation of new tools, trends, and best practices in IT infrastructure and software development.
- Operate effectively in a high-pressure, 24/7 environment, managing unpredictable outages and client demands with professionalism and resilience.
- Ensure compliance with security protocols, privacy legislation, and CRA policies in the handling of sensitive data and system changes.

2022 - 2023 **Program Opposition Assistant, Federal Student Work Experience Program (FSWEP)***Innovation, Science and Environmental Development Canada*

Trademark Opposition Board (TMOB)

Place du Portage, Gatineau, Quebec

- Debugging and testing a new database software system for TMOB
- Categorizing, organizing, archiving files, and documentation for Article 45 and opposition procedures

Work Experience:2021 - ... **Server/Manager**

Boston Pizza, Rockland, Ontario

- Customer service in a fast-paced environment
- Ensuring customer well-being and satisfaction
- Managing staff and restaurant

2019 - 2021 **Display and Sales Clerk**

TSC, Rockland, Ontario

- Supporting product marketing; display setup, visual presentation, labeling
- Responding to customer queries and assessing their needs
