DEAR HIRING MANAGER,

As someone with a deep commitment to advancing within the industry of technology, I am excited to apply for this exciting employment opportunity. I've undertaken a diverse range of roles which have allowed me to develop a multifaceted skill set that has empowered me to successfully support various programs and initiatives within the community. These experiences have allowed me to make meaningful contributions to technical projects, further advancing my impact and expertise.

I have extensive experience in collaborating with diverse clients within corporate industry as well as community non-for-profits to design, evaluate, and maintain network systems and software applications corresponding with physical hardware systems tailored to achieve specific project objectives.

In addition, I bring hands-on experience with project management and data visualization tools such as Asana, Power BI, and Trello—resources I've used to streamline workflows, track performance, and drive informed decision-making.

I possess the necessary competencies to excel in this position, including strong organizational and time management skills, and problem-solving abilities. Some of my key proficient skills include organizing projects according to agile methodologies and using different integrated development environments to effectively create and implement software.

I have profound experience in outreach to different age groups and communities through my involvement at non-profit organizations and vast knowledge of administrative duties. I am eager to bring forth my skills to new employment opportunities by creating impact and innovation.

Enclosed, please find my resume which showcases a career marked by a series of successful roles in Network administration, application development and technical customer support

I look forward to discussing this position and my qualifications in further detail. I appreciate your consideration, feel free to contact me for any additional information required.

Sincerely,
Dylan Harpal

A passionate and dedicated professional with a strong background in managing Network technologies; while, fostering community development. Open to new opportunities that leverage my experience in technology management and community outreach to make a meaningful impact.

WORK EXPERIENCE

■ 2025 - present

Long & McQuade – London–St. Thomas Region

Sales & Rentals Associate / Regional IT Support

- Deliver front-line sales and rental support to customers, providing product recommendations and ensuring high levels of customer satisfaction.
- Manage rental transactions, contracts, inventory tracking, and equipment returns in a fast-paced retail environment.
- Provide on-site and remote IT support across multiple branch locations from Cambridge to Windsor.
- Troubleshoot and resolve hardware, software, POS, and peripheral issues to minimize operational downtime
- Assist with workstation setup, system configuration, and network setup/troubleshooting
- Acted as a local point of contact between branch staff and regional IT for issue escalation and resolution
- Supported system updates, device replacements, and routine maintenance activities
- Documented technical issues and resolutions to support consistent IT operations
- Balanced technical responsibilities while maintaining strong sales performance and customer service standards

■ 2023 - 2025

UPS - United Parcel Service

INFORMATION TECHNOLOGY SUPPORT TECHNICIAN

- Over the term of employment, I've diligently managed to excel my reach company wide by not only providing technical support to one team or building, but to multiple buildings throughout the Greater Toronto Area.
- I have directly contributed to the company's success by implementing schedules and key dates for maintaining internal technologies such as servers, access points, VOIP phones, and security systems, ensuring smooth non-stop operations, increasing efficiency and productivity.
- I led the implementation of a CradlePoint cellular backup and RFID package tracking at the largest sort hub in the GTA, along with system improvements that increased package flow and reduced processing time. These changes boosted productivity, allowing the system to process 20% more volume per sort period.

■ 2018 - 2023

UPS SCS

DANGEROUS GOODS AUDITOR

- Managed the completion and auditing of Canada Customs paperwork, while conducting detailed inspections of secure shipments, ensuring quality standards were met and improving overall efficiency and success. Further implemented the use of an easy-to-file digital system for all paperwork to guarantee there is a record of shipment.
- I ensured special handling shipments were properly packaged, labeled, and documented according to IATA, ICAO, and other regulations, supporting compliance and operational efficiency.
- I guided safe handling, storage, and transportation of hazardous goods, conducting regular inspections to ensure compliance, which supported safety and aligned with company initiatives.

■ May 2015 - Present (Seasonal)

Cultural Centres and Organizations - Mississauga's Ram Mandir

LEAD IT COORDINATOR

- Successfully set up servers, domains, and cloud storage, resolved technical issues, and maintained laptops and desktops, ensuring smooth hardware and software operations that contributed to overall company objectives.
- I upgraded and installed new computer systems while providing technical support to team members, directly enhancing productivity and ensuring smooth operations across the company.
- Maintained and upgraded CCTV equipment, including new camera installations, digital signage, and low-voltage cable runs, improving security infrastructure and boosting operations.
- Configured and maintained critical infrastructure, including MS Servers, MS Windows, SpringBoot framework applications including Spring security, Java Databases, JUnit, Apache, and Azure.

■ June 2018 - 2020 (Seasonal)

Canadian Indo-Caribbean Festival (Non-Profit)

IT Support Specialist

- Managed technical logistics on multiple community events and workshops from inception to completion, ensuring seamless execution of events.
- Spearheaded sourcing and management of IT equipment by procuring networking tools, software, and hardware that is essential to support the seamless execution of CICF events.
- I implemented proactive strategies to mitigate technical difficulties, including optimizing resource allocation, conducting thorough system testing in advance, and ensuring comprehensive backup measures were in place.
- I enhanced the team's productivity by introducing organization platforms that included task trackers, project management tools and much more.
- Leveraged creativity to design and implement digital backgrounds, while effectively operating LED screens during the event to enhance the overall visual experience.

■ June 2020 - Present (Seasonal)

Canadian Indo-Caribbean Festival

Event Coordinator

- Developed and coordinated The ADAPT Program, which consisted of artist workshops, guest speakers series, and reception galas.
 - Facilitated the completion of paperwork such as contracts, budgeting documents, event permits, insurance forms, and post-event reports, as-well as damage control.
 - Proficient in documenting meeting minutes with accuracy and attention to detail.
 - Implemented time management strategies and event plans that optimized stage and performer coordination while addressing safety challenges with contingency measures.
 - Prepared the emcee with keynote remarks for each artist, ensuring a smooth flow of introductions as-well as the director's on-stage remarks.
 - I enhanced The ADAPT Program by optimizing event registration, ensured participant tracking, coordinated travel for guest speakers and mentors, as-well as developed slide-show presentations for each workshop.
