

PAOLO CAUTON

EXECUTIVE SUMMARY

Highly accomplished Data Architect and Leader with 25+ years of comprehensive experience serving across the roles of Data Architect, Data Modeler, Data Engineer, and Data Project Manager. Expertise includes the end-to-end delivery of complex Data Warehouse, BI, and Analytics solutions, across architectural design and dimensional and medallion frameworks. Proven success designing and integrating analytical data platforms (Data Warehouse, Data Lake) both and marketing systems (CRM, CDP, campaign automation). Adept at utilizing advanced ETL/development tools (Informatica, IBM DataStage, dbt, Python) and integrating AI to significantly accelerate data build processes. Extensive experience leading large project teams and leveraging deep expertise across RDBMS/Cloud Data Stores including Google BigQuery, Teradata, Oracle, Sybase IQ, and MS SQL Server. Industry specialization spans Telecommunications (LEC/CMTS), Retail, Financial, Manufacturing, and Logistics.

CORE COMPETENCIES

- **Data Architecture & Modeling:** DAMA-Data Management Body of Knowledge, Medallion Architecture, Dimensional Modeling (Star/Snowflake Schema, Data Marts), Systems Integration, ETL Architecture.
- **Modeling Tools:** Erwin, PowerDesigner.
- **Databases & Query:** Google BigQuery, Oracle, MS SQL Server, IBM DB2, Sybase IQ/ASE, NoSQL, SQL.
- **Data Integration & Development:** dbt, Informatica PowerCenter, IBM DataStage, Python, JavaScript, JSON, Liquid.
- **Business Intelligence (BI):** Power BI, Looker, SAP BusinessObjects.
- **Marketing & Customer Platforms (CDP):** Lytics, Twilio Segment, Customer.IO, Onetrust (Privacy/Consent).
- **Leadership & Management:** Administering Large and Hybrid Project Teams, Developing DW/BI Professionals, Project Management.
- **Industry Focus:** Telecommunications (LEC/CMTS), Retail, Financial, Manufacturing, and Logistics.

EXPERIENCE DATA ARCHITECT

APPLY DIGITAL LTD, TORONTO, ONTARIO

NOVEMBER 2021 – JULY 2025

- **Architectural Design & Delivery:** Designed and implemented data pathways in collaboration with the engineering team, connecting core digital applications including client webpages, e-commerce (Shopify), Customer Data Platforms (Lytics and Segment), Marketing Campaigns (Customer.IO), and Analytics (Google Analytics).
- **Medallion Architecture & Data Landing (SME):** Directly responsible for data ingestion and landing in the Bronze zone. Served as the Subject Matter Expert (SME), providing the detailed transformation requirements used by the downstream ELT team for coding the Silver and Gold zones.
- **Compliance & Data Security:** Ensured end-to-end GDPR compliance was fully integrated into the ELT journey of all ingested data, establishing strict protocols for consent management (Onetrust) and data minimization through in-process validation and regular data audits.
- **Data Governance & Quality:** Defined comprehensive data standards to ensure consistency across software development ecosystems and data solutions, guaranteeing high data quality and security.
- **Business Alignment & Metrics:** Established reusable business metrics, mapped Objectives and Key Results (**OKR**) against collected customer data attributes, and identified critical data gaps required for clients to achieve key business and marketing objectives.
- **Development Influence:** Collaborated with engineering teams to influence code development processes, ensuring integrated mechanisms for optimal data acquisition and consumption directly within source applications.

BUSINESS ANALYTICS MANAGER / DATA ARCHITECT

INDRA PHILIPPINES, PASIG CITY, PHILIPPINES

AUGUST 2018 – JUNE 2021

- **Architectural Strategy & Implementation:** Led the architectural design and implementation of data solutions for major clients, successfully implementing data architectures for the top telecommunications providers in the Philippines.
- **Data Pipeline & ETL Development:** Designed and implemented highly efficient data pipelines to transport source data from disparate operational systems to central Data Warehouse and Data Lake environments, leveraging on tools such as Informatica PowerCenter, Microsoft SSIS, and IBM DataStage.
- **Data Governance & Standardization:** Standardized the enterprise data architecture across multiple client engagements to align with DAMA-DMBoK (Data Management Body of Knowledge) best practices, and established a

comprehensive Data Control Framework for rigorous data governance.

- **Deployment Flexibility:** Designed and executed versatile data architectures, delivering robust on-premise, cloud, and hybrid solutions tailored precisely to complex client operational and security requirements.
- **Subject Matter Expertise (SME):** Provided critical subject matter expertise on complex data ecosystems and business automation requirements across key verticals: Telecommunications, Retail, Logistics, and Banking.

BUSINESS INTELLIGENCE MANAGER / SOLUTIONS ARCHITECT

LBC EXPRESS, PASAY CITY, PHILIPPINES

AUGUST 2014 – JULY 2018

- **BI & DW Platform Leadership:** Led the Business Intelligence Competency Center (BICC), with the primary objective of maturing the organization's information-driven operations and management capabilities.
- **Architectural Design & Implementation:** Designed and successfully implemented LBC's comprehensive Business Intelligence and Data Warehouse Platforms utilizing Microsoft SQL Server (SSIS/SSRS), Power BI, and Pitney Bowes Spectrum.
- **Data Warehouse Model & Scope:** Designed the core Data Warehouse model and managed its underlying database structure, consolidating data from disparate platforms covering extensive global operations (Philippines, Middle East, Europe, and North America) and all primary service offerings (parcel, cargo, and money remittance).
- **Data Governance & Standardization:** Defined and implemented a standardized ETL architecture which included establishing a central control framework, creation of standardized code structures, and comprehensive data validation procedures.
- **Customer-Centric Architecture:** Implemented a Single Customer View (SCV) initiative through the clean-up and consolidation of fragmented customer information, enhancing reporting accuracy for the business.
- **Team & Consulting Management:** Managed a pool of ETL and report developers, while providing expert technical consulting for internal projects related to Customer Relationship and Campaign Management, and Complex Business Analytics platforms.
- **Stakeholder Liaison:** Partnered with Department Heads to facilitate data discovery, often working with grass-roots platforms that had limited or outdated documentation.

DATA PLATFORMS SOLUTIONS CONSULTANT
GLOBE TELECOM, TAGUIG CITY, PHILIPPINES
SEPTEMBER 2013 – JULY 2014

- **Technical Subject Matter Expert (SME):** Provided critical subject matter expertise in Teradata BTEQ and SQL code optimization and offered guidance in resolving complex technical issues related to core database and ETL platforms (Teradata, Oracle, Sybase IQ, Informatica) and UNIX/Linux environments.
- **Process & Delivery Optimization:** Streamlined the resolution of production and delivery issues by actively providing technical direction and implementing best practices and methodologies to enhance delivery capabilities.
- **Methodology Implementation:** Developed iSM-Optimus Project Delivery processes, leveraging a Waterfall approach for the core ETL and Data Warehouse build, while utilizing Agile methodologies for Business Intelligence and Statistical Analysis requirements.
- **Data Integration & Quality:** Enabled a Single Customer View (SCV) initiative by providing expertise in the clean-up and consolidation of fragmented customer information, significantly improving data quality and consistency.

DATA INTEGRATION PRACTICE LEAD - LEAD DATA ENGINEER
TERADATA GLOBAL COMPETENCY CENTER, TAGUIG CITY, PHILIPPINES
FEBRUARY 2011 – AUGUST 2013

- **Practice Development & Strategy:** Developed and managed the entire Data Integration Practice specific to the IBM DataStage ETL tool for the Global Competency Center, establishing delivery strategies and repeatable methodologies to ensure consistent, high-quality project execution.
 - **Global Team Leadership:** Managed a team of 60 off-shore resources, overseeing their technical execution, providing mentorship, and ensuring their personal and technical development in support of global Teradata projects.
 - **Technical Oversight & Guidance:** Provided technical guidance, training, and oversight to consultants on the execution of DataStage projects, ensuring successful delivery of requirements specific to Teradata environments.
 - **International Coordination:** Served as the key liaison between developers in Manila and partners across the United States, Canada, and Latin America, facilitating seamless project planning, issue resolution, and complex project execution.
 - **Subject Matter Expertise & Policy:** Provided critical Subject Matter Expertise (SME) for the Telecommunication and Retail industries, and developed corporate policies and practice directions consistent with Teradata global guidelines.
-

SENIOR SYSTEMS CONSULTANT – INTELLIGENT ENTERPRISE
SYBASE (SINGAPORE) PTE. LTD.
NOVEMBER 2009 – OCTOBER 2010

- **Enterprise Solution Delivery:** Delivered complex enterprise solutions centered on Sybase's Intelligent Enterprise stack, leveraging key technologies including Sybase IQ (columnar database), PowerDesigner (enterprise architecture/modeling), Replication Server, and Sybase ETL.
 - **Regional Consulting & Architecture:** Provided expert consulting services across Southeast Asia, focusing on critical client requirements such as architecture reviews, system upgrades, database migration, and comprehensive Data Warehousing implementation.
 - **Mobility & Presales Support:** Provided technical support and presales expertise to account managers for Sybase Mobility products, focusing on mobile application development (Unwired Platform) and heterogeneous device management (Afaria).
 - **Industry Advisory:** Provided specialized technical advice and solution guidance to clients across the Asia-Pacific region (APO) related to the Telecommunications and Retail industries.
-

SENIOR MANAGER – RETAIL BI & DATA WAREHOUSING
SM RETAIL INC. , PASAY CITY, PHILIPPINES
OCTOBER 2007 – OCTOBER 2009

- **Vendor Management & Project Leadership:** Managed the SM project implementation of the IBM Retail Business Intelligence and Data Warehouse solution for the SM Department Stores, ensuring timely and high-quality delivery.
 - **Architectural Overlap & Strategy:** Concurrently acted as the Data Warehouse/ETL Architect for all BI requirements falling outside the contracted scope-of-work by the IBM implementation team.
 - **Legacy Data Integration:** Led the complex integration of data from diverse legacy FoxBase systems and the inventory management systems on Mainframe into the central DW platform.
 - **Performance Optimization:** Was responsible for the technical optimization of ETL processes across the platform to ensure compliance with process and infrastructure service levels.
-

BUSINESS UNIT DIRECTOR – CRM SOLUTIONS & DATA CONSULTING
PROXIMITY PHILIPPINES, MAKATI CITY, PHILIPPINES
MAY 2006 – AUGUST 2007

- **Business Unit Expansion & Strategy:** Managed the development and integration of the Data Consulting business unit, successfully adding CRM solutions and

data-driven capabilities to the marketing / advertising company's core service offerings.

- **Data Capability Build-Out:** Tasked with building and maturing the internal data capabilities to reliably deliver complex relationship-marketing requirements for key clients.
 - **Full-Stack CRM Proposals:** Developed and pitched comprehensive project proposals and technical solutions for major brands, encompassing all technical solution components (including hardware, software, and analytical tools) necessary for delivering both operational and analytical CRM capabilities.
-

PROJECT MANAGER / LEAD SOLUTIONS ANALYST – ENTERPRISE DATA WAREHOUSE

GLOBE TELECOM, MANDALUYONG CITY, PHILIPPINES

MARCH 2004 – JANUARY 2006

- **DW Architecture & Cost Reduction:** Designed the technical architecture for the total Mobile Data Warehouse, leveraging new developments in Sybase IQ (Multiplexing, SATA support, Data Store migration) to achieve a 50% reduction in cost per megabyte.
 - **Project Leadership & Management:** Developed and ensured the execution of the project implementation plan, directing both developer and hardware resources to guarantee efficient solution delivery.
 - **Stakeholder & Vendor Management:** Coordinated with component suppliers, executive sponsors, consultants, and business users to manage project scope, timelines, deliverables, and cost.
 - **BI Solution Delivery:** Led the technical team in delivering Business Intelligence solutions using the existing Data Warehouse, Business Objects, and SAS for reporting and mining.
 - **Future-Proofing:** Ensured open compatibility and future-proofing of all data warehouse components.
-

ETL & BI ARCHITECT / LEAD ANALYST – POSTPAID DATA WAREHOUSE

GLOBE TELECOM, MANDALUYONG CITY, PHILIPPINES

NOVEMBER 2001 – FEBRUARY 2004

- **ETL Development & Tools:** Developed extraction and transformation programs to transfer and prepare data from disparate sources for DW loading, utilizing Informatica PowerMart and Unix Scripting.
- **Data Modeling & Semantic Layer:** Maintained and extended the warehouse model and designed/maintained the semantic layer (Business Objects Universe), enabling business users to perform self-service reporting and analysis without requiring SQL programming.

- **BI & Training:** Developed standard Business Objects reports and served as the in-house instructor for training internal business users on the Business Objects reporting tool.

SOLUTIONS DEVELOPER / ANALYST – IS GROUP

GLOBE TELECOM, MAKATI CITY, PHILIPPINES

MARCH 1997 – DECEMBER 2001

- **Acquisition System Integration:** Provided IT technical expertise and support for the Islacom acquisition integration, ensuring the successful migration of all subscription and billing information (for both landline and mobile systems) from the acquired company's systems into existing Globe Telecom platforms.
- **CRM Project Initiation:** Served on the CRM Bidding Committee, co-authoring technical requirements and leading the vendor short-listing and selection based on RFP response and industry feedback.
- **Core Billing Systems Support:** Managed and supported the mobile Customer Care and Billing (CCB) and landline Customer Telephone Application and Billing System (CTABS), addressing customer management, traffic, and billing requirements using Sybase ASE 12 on HP-UX.
- **Legacy Development:** Developed a GUI cTABS Utilities application using PowerBuilder 6.5 to retrieve and present cabling information; created ad-hoc reports using Unix and SQL scripting.

EDUCATION Ateneo De Manila University, Quezon City, Philippines

- Bachelor of Science in Computer Engineering, 1995
- Bachelor of Science in Physics, 1994

SKILLS & INTERESTS Travel, History, Automotive Mechanics, Carpentry & Woodworking, Photography, Cycling, Science & Technology, Music, Science Fiction & Fantasy
