Professional Summary

A dedicated enterprising professional with more than 13 years of working experience in telecommunication (equipment engineering, transmission (Microwave & Optical), NOC, Field Operation, & maintenance, rollout & data analysis); Accomplished considerably large number of high value projects with significant amount of CAPEX & OPEX savings, with proven ability to thrive in extreme workloads, troubleshooting, complex live network operations, technical support, aggressive rollout assignments, 24/7 support, network surveillance. I also worked in independent market like FIVERR as a data analyst. Meticulous attention to detail, unwavering reliability, discipline, and constant pursuit of improvement are some of my core traits. *Seeking a position where I can utilize my previous experience, transferable skills and expertise to grow while contributing to the success of the business.*

Experience

Network Design & Eqp Engineer (Independent Contractor, Remote) | **SM Consulting (Rogers) - Mississauga, ON, Canada** | Nov 2021 - **Present**

Implementation WO & Provisioning WO creation for new site deployment, baseband modernization, 5G uplift, LL implementation, microwave, switch upgradation / addition / decom, TLAN & service migration, link BW increment, OSPF change, decommissioning etc. ✓ Configuration file/script preparation. ✓ Connection reports, QoS, Service impact analysis etc. ✓ Required power dimensioning. ✓ AutoCAD & VISIO drawing update & correction. ✓ Project coordination (as required). ✓ Work on IP assignments for Hop by Hop, Loopback, new Services/Nodes/RBS, TLAN. ✓ To ensure quality. **Tool Operation:** Remedy, PDT, BluePlanet (BPI), NRM, HPNA, EERF, ADM, IP Control, SAP Business Object, SPNet, SharePoint, MS Office tools etc.

Data Analyst (Data Processing, Analyzing, Excel MACRO Development, VBA Automation & Reporting) | **Fiverr** | Apr 2021 - Present

Working in different platforms/marketplaces, especially in Fiverr. Thanks for your interest to check few of my works & clients' review:

https://www.fiverr.com/mmsadid?public_mode=true

Project Coordinator | **Robi Axiata Limited** | April 2021 - October 2021

✓ Ensured e2e new MW link readiness for traffic cutover; ✓ Provided technical & logistic support for MW projects; ✓ Coordination to inhouse & other stakeholders; ✓ WO execution, follow up, assisted in planning, quality check, provisioning & service migration; ✓ Weekly reporting. ✓ Gave necessary training to subcontractors & teams on Capacity expansion, XPIC, Swap, Rectification, DCN, rehoming, traffic cutover etc., ✓ Develops, reviews, and provides training and knowledge management documentation. ✓ Administrative assistance.

Sr. Transmission Engineer (Microwave, Data analysis & Report Automation) | **Banglalink Digital Communication** | Nov 2017 - Mar 2021

MW transmission 2nd level support, project coordination, regular KPI check, & support to other domains :

✓ Fault identification, troubleshooting, 2nd level support & e2e follow up until resolution; ✓ Cable cut, emergency service rerouting; ✓ Cooperated with other domains like NTTN, BSS, DN, power, optical for faster resolution; ✓ RC analysis of site down, service degradation & KPI check of MW network; ✓ Data analysis, E2E maintenance & regular sanity check of MW Central Database & its derivatives in MS Access, Excel, SQL;

✓ Worked in Huawei, Ericsson, NEC & ZTE MW transmission equipment; ✓ Handled critical, largescale and high valued customer complaints; ✓ Potential threat identification, capacity solutions, new feature testing & deployment; ✓ Lead numerous CAPEX & OPEX saving high valued projects; ✓ Issued TT, E2E followed up until resolution and finally took necessary actions to prevent recurrence; ✓ Managed team resources & task prioritization and distribution of assignments; ✓ Daily, weekly & monthly analysis & reporting; ✓ Transmission performance check, Ping Loss /Delay /Jitter, BW issues troubleshooting; ✓ Develops, reviews, and provides training and knowledge management documentation. ✓ Reporting on WOs, Trouble Ticket, traffic down incidents, Congestions, Flow Control, link performance etc.;

Transmission Specialist (Optical)| Banglalink Digital Communication | Jun 2014 - Nov 2016

✓ Collaborated with internal team, other stakeholders and vendors to facilitate project activities to accumulate data, test, process, analysis, and resolve. ✓ New service configuration & modification ; ✓ WO execution/follow up; ✓ 24/7 Roster on-call support; ✓ Both on site & Backoffice support in execution of new Add Drop Multiplexer (ADM) WOs(installation & commissioning, service provisioning) ✓ ADM modification like capacity expansion, Hot swap, MSTP to MSTP+ shifting, FE to GE upgradation, ✓ Sanity check of database, finding inconsistencies between data and various mapping systems to ensure data accuracy & quality. ✓ Traffic pass thru, add/drop, Relocation etc.) ✓ Develop and review scripts; New 3G 4g service on air, BW increment, ✓ Site down & KPI issue Troubleshooting; ✓ On site support in DWDM; ✓ Fiber cut follow up for faster restoration, & emergency rerouting; ✓ QoS implementation; ✓ MW-Mux interfacing, configuration & troubleshooting; ✓ Packet & TDM service creation, modification, traffic addition /deletion /urgent rerouting/migration/re-homing, configuring protection (LMSP/SDH/IP Ring/SNCP etc.); ✓ Capacity expansion & rollout on site support;

System Engineer(Shift Lead)| Huawei| Sep 2011 - Jun 2014

✓ Alarm Monitoring; KPI Analysis;- Network Performance analysis;- First level troubleshooting, fault analysis & escalation; ✓ Daily/Weekly/Monthly different report generation. ✓ Collaborated with internal team, other stakeholders and vendors to facilitate project activities to accumulate data, test, process, analysis, and resolve. ✓ Develops, reviews, and provides training and knowledge management documentation. ✓ Administrative assistance.

Field Maintenance Engineer (Acting Team lead)| Huawei| Sep 2011 - Jun 2014

✓ Maintenance of Airtel network in Comilla region; ✓ 24/7 support; ✓ Coordination with Field Maintenance engineers & allocation of resources; ✓ Onsite support for BTS, BSC, Transmission (Microwave & Optical) & Power for both Huawei & Ericsson equipment; ✓ New rollout & Swap activity; ✓ Collaborated with internal team, other stakeholders and vendors to facilitate project activities to accumulate data, test, process, analysis, and resolve. ✓ Maintained database, invoices & managed regular operations' needs. ✓ Administrative assistance.

Installation & Commissioning Engineer| Fair And Appropriate Technology Limited| Jun 2010 - Sep 2010

✓ RAN Optimization [Expansion & Modification WO & TTs]; ✓ On site support for transmission [E1 throwing or route pulling Co-location] ✓ Installation & Commissioning of BTS [Ericsson, NSN & Huawei]; ✓ Installation & Commissioning of Access layer transmission [NEC, Siemens & Huawei]

I also worked as an Activation Specialist(RWireless, Saskatoon) and Production Technician(Maple Leaf Foods, Saskatoon) for short period of time.

Qualification

Bachelor's | Electrical & Electronic Engineering | KUET (Khulna University of Engineering & Technology, Bangladesh) [Assessed by WES]
