

THAVES PONNAMPALAM

VICE PRESIDENT, DATA | HEALTHCARE SaaS FOUNDER

416-400-0525 | thaves@gmail.com | 240 Rizal Ave, Markham, ON | linkedin.com/in/thaves

PROFESSIONAL OVERVIEW

Results-driven data and technology executive with 15+ years of experience spanning healthcare, finance, and SaaS industries. Proven record of building and scaling innovative products — from AI-powered tools to enterprise-wide data platforms — that deliver measurable business impact. Expertise in data strategy, product innovation, and operational efficiency, with success leading cross-functional teams.

Founded and scaled Continyou Care, an all-in-one SaaS platform for retirement communities, organically growing to \$1M+ annual revenue before a successful 2024 acquisition. Passionate about leveraging AI and analytics to solve complex problems and accelerate business outcomes.

WORK EXPERIENCE

P\S\L Group | Montreal, QC, Vice President of Data May 2020 - Present

- Spearheaded company-wide data strategy, transforming raw activity data into actionable insights that shaped executive decision-making.
- Directed innovation projects in products, services, and processes, resulting in multiple new revenue-generating offerings.
- Launched Dougall GPT, an AI chatbot for healthcare professionals, driving industry recognition and adoption.
- Oversaw the design and maintenance of reports, databases, dashboards, and presentations for internal stakeholders and clients.
- Unified multiple data sources into a centralized platform, improving reporting accuracy by 40% and reducing analysis time by 30%.

Continyou Care | Toronto, ON, Co-Founder / CEO Jan 2015 - Nov 2024

- Identified a niche in the healthcare market and developed a retirement facility management SaaS platform adopted by 1,000+ healthcare employees.
- Grew the business organically to \$1M+ in annual recurring revenue before selling the company in 2024.
- Ensured HIPAA compliance and implemented robust data security measures in application architecture.
- Led end-to-end product lifecycle: ideation, development, deployment, marketing, and client support.
- Managed data architecture, engineering, operations, governance, reporting, and analytics.

Cidel Asset Management | Toronto, ON, Sr. IT Business Consultant Jun 2013 - Apr 2020

- Led development and enhancement of trading applications, collaborating with engineering, sales, and marketing teams.
- Spearheaded a successful implementation of new integrated banking software (Olympic), reducing operational redundancies and costs.
- Responsible for all aspects of SDLC, i.e. analysis, design, development, testing, deployment, maintenance/support and training.
- Built in-house reconciliation software that cut reconciliation processing time by 50%.
- Delivered training to users in trading, reporting, compliance, and performance analysis.

THAVES PONNAMPALAM

WORK EXPERIENCE CONTINUED

SS&C Technologies Corp. | Mississauga, ON, Senior Product Consultant

Jul 2007 - May 2013

- Partnered with stakeholders to define product requirements aligned with business goals.
- Worked alongside product managers, developers, and QA teams to ensure seamless product releases and timely updates.
- Managed end-to-end implementation projects, including data migration, testing, integration, and client training.
- Provided demos and training that boosted client adoption rates and satisfaction.
- Managed client relationships, ensuring satisfaction and identifying opportunities for upselling and expanding product usage.
