CAREER HIGHLIGHTS

Business Intelligence and Data Analytics Expert with a strong record of delivering enterprise-wide data transformation across fintech, telecom, and banking sectors. Adept in architecting scalable BI operating models, leading analytics modernization, and embedding data-driven cultures across organizations. Proven ability to align data strategies with executive objectives and foster high-performing, multi-tier teams through a coaching-infused leadership approach. Trusted advisor to C-level executives and regulatory stakeholders, with a proven track record of driving business-centric data transformations, influencing data governance evolution, and embedding data-driven cultures that enhance operational efficiency, compliance, and growth, and driving B2B data monetization. Recognized for delivering multi-million-dollar business impact through actionable insights, automation, and customer-centric data strategies.

Skills

- Enterprise BI Strategy & Roadmap
- Digital Transformation
- KPI Design & Executive Dashboarding
- Data Engineering (ETL Pipelines, Data Lakes)
- Data Monetization & B2B Enablement
- Data Culture Leadership
- Cloud Platforms
- C-Suite Advisory
- Data Governance, Privacy, and Security
- Data-Driven Business Enablement
- Advanced Analytics & Modelling
- Regulatory Reporting
- Agile Delivery & Cross-functional Team Leadership

WORK EXPERIENCE

Easypaisa Digital Bank - First Digital Bank | Active 18M+ Monthly Users

Head of Business Intelligence | Mar 2024 – Sep 2025

Role Overview: Headed the BI department including BI automation & Reporting, Data Engineering, and BI Operations teams (15+ members) during Easypaisa pivotal transition into Pakistan's first Digital Retail Bank. Built the data-driven foundation necessary to support insights, regulatory compliance, and strategic business enablement across digital banking operations for both branch & branchless functions.

Strategic Contribution Highlights:

- Real-Time Insights Enablement:** Delivered KPI dashboards & reports across the organization, enabling business units to monitor real-time performance and empowering business decision-making.
- Operational Efficiency Through Automation:** Automated critical business and BI processes, substantially reducing turnaround times, minimizing operational risk, and optimizing service delivery across departments.
- Digital Banking Support:** Led BI adaptation to fully align with the digital banking model, ensuring the agility and scalability of analytics infrastructure.
- Regulatory Compliance:** Engaged with the State Bank of Pakistan to establish transparent data frameworks, ensuring full regulatory compliance during the organization's operational scale-up.
- Team Leadership:** Recruited, mentored, and led three specialized teams, instilling a culture of proactive analytics delivery, performance ownership, and continuous skill development.
- Data Culture Advocacy:** Promoted a business-centric data-driven culture, embedding analytics into everyday decision-making processes across functional and leadership teams.
- Pipeline Stabilization:** Streamlined mission-critical data pipelines, ensuring continuous data availability and reliability for all banking processes.
- Cross-Functional Collaboration:** Engaged internal business units, senior leadership, regulators, and external vendors to align BI deliverables with strategic growth initiatives and regulatory needs.
- Key Projects:** Product wise Customer Profiling and Growth Strategy (UBP), Lending Risk Analysis, Consumption Lending Upscaling, Productive Lending Revamp, eCIB
- Awards and Recognition:** STAR Awards 2025 - Recognized for exceptional performance and impact on key digital initiatives.

Unit Head of BI Reporting & Automation | Mar 2022 – Mar 2024

Role Overview: Led BI Reporting and Automation functions during the early digital transformation phase, optimizing data quality, reporting workflows, and operational cost structures. Established foundational BI practices that positioned the organization for scalable, insight-driven growth.

Strategic Contribution Highlights:

- **Streamlined Reporting Processes:** Optimised reporting workflows and reduced the time and effort required to generate reports, increasing team efficiency
 - **Improved Data Quality:** Successfully implemented data cleansing and validation processes to ensure the accuracy and reliability of data, leading to more informed decision-making.
 - **Cost Reduction:** Implemented cost-effective BI solution, leading to reduced software and infrastructure costs while maintaining and improving functionality.
 - **Cross-functional Collaboration:** Fostered collaboration between the BI team and other departments, ensuring that BI solutions aligned with the organisation's strategic goals.
 - **Awards and Recognition:**
GEM Awards 2022 - Honored for outstanding contribution to innovation and cross-functional collaboration.
-

TELENOR - Pakistan's Second Largest Telecom | 43M+ Subscribers

Manager – Data Engineering | Dec 2019 – Mar 2022

Role Overview: As a founding member of the Data-as-a-Service (DaaS) Team, shaped data engineering and monetization strategies for enterprise services and B2B enablement. Partnered with Telenor business leadership and external stakeholders to align data solutions with long-term strategic goals and drive customer-centric innovation. Enabled data-driven decision-making across multiple sectors, including telecom, energy, FMCG, social services, and financial services.

Strategic Contribution Highlights:

- **Roadmap and Strategic Direction:** Defined and executed the roadmap for enterprise data services, ensuring alignment with Telenor Pakistan's business vision and evolving client needs.
- **High-Impact Initiative Leadership:** Led end-to-end planning and delivery of strategic projects, evaluating external partnerships to foster innovation, scalability, and long-term business growth.
- **B2B Insights Enablement:** Empowered B2B clients by harnessing consumer insights, enhancing decision-making through tailored data solutions and targeted analytics.
- **Market Research Optimization:** Strengthened the effectiveness of market research agencies by integrating proprietary Bizmine insights into survey programs.
- **Key Projects:** Delivered high-value analytics initiatives including Whitespace Analysis (Unilever), Mobility Analysis (Roadmasters), COVID-19 Migration Impact Analysis (PEPSICO), and Brand Health Tracking Survey (P&G).
- **Awards and Recognition:** Trailblazer Awards (2019) - Awarded for pioneering work in data-driven product enablement and analytics.

Data Engineer | Sep 2016 – Dec 2019

Role Overview: Transitioned from a technical execution role to a business-centric data engineering position, driving strategic value creation through data-driven product innovation and operational excellence.

Strategic Contribution Highlights:

- **Data Monetization and Business Growth:** Spearheaded revenue growth by integrating diverse data sources into the enterprise DWH and leading data-driven upselling campaigns.
 - **Digital Transformation Enablement:** Led initiatives to modernize traditional distribution channels, digitizing ecosystems for broader accessibility and operational efficiency.
 - **Risk Model Collaboration:** Acted as a strategic partner with Telenor Bank and Teradata to develop Credit Score Models, enhancing financial decision-making with data-backed insights.
 - **B2B Product Enablement:** Led the development and growth of the data monetization portal, delivering analytics products that empowered market research and strategic planning for enterprise clients.
 - **Awards and Recognition:** Business Division Champion Award (2018) – Acknowledged for excellence in driving business value through strategic insights.
-

TERADATA

Professional Services Consultant | Feb 2010 – Aug 2016

Role Overview: Provided strategic data solutions consulting, helping all major telecom and bank clients optimize data workflows, customer segmentation, and product personalization initiatives.

Strategic Contribution Highlights:

- **Contextual Marketing Optimization:** Designed and implemented high-quality data preparation workflows for Next Best Offer (NBO) initiatives, enhancing predictive modeling accuracy.
- **Customer Segmentation Excellence:** Built scalable frameworks to process signaling data, enabling rich analysis of customer behaviors and strategic segmentation models.
- **Enterprise Data Infrastructure Upgrade:** Led Teradata cLDM upgrades (v10 to v13) for Telenor, improving data model consistency, ETL performance, and scalability to support evolving business requirements.

EDUCATION

- **MS (Computer Software Engineering)**
National University of Sciences & Technology | Sep 2007 – Mar 2010
- **BS (Computer Information Sciences)**
Pakistan Institute of Engineering and Applied Sciences | Aug 2003 – May 2007
Merit Scholarship awarded for academic excellence during undergraduate studies.
- **ICS (Computer Information Sciences)**
Board of Intermediate and Secondary Education – ICS (2003) – Bahawalpur Board
Distinction Holder* - 3rd Position in Board of Intermediate and Secondary Education – ICS (2003)

Training, Conferences & Certifications

- Data Monetization & Market Research Opportunities Workshop 2021
- Ali Baba Cloud Associate - Cloud Computing 2019
- Ali Baba Cloud Professional - Cloud Computing 2019
- Data Science Hackathon Telenor 2018
- Certified Teradata 14 Professional 2015
- Teradata 14 Logical Data Model Training 2014
- Publication: "**Reliable Event Response Framework for Wireless Sensor Actor networks**"
Proceedings of AINA 2011 - Singapore
