

Konstantin Karavaev

Ottawa, ON K2P 0A9 | 438-495-1775 | konstantinkaravaev@proton.me

Summary

A motivated and detail-oriented professional seeking career opportunities in an entry-level junior web developer (Full Stack) position within a collaborative environment. An upcoming graduate of a full-stack developer online certificate program, with an academic background in IT. Key strengths include hardworking and strong self-learning skills, an excellent ability to solve complex problems with sophisticated solutions, and a great eye for design. Highly organized and proactive with a team-oriented mentality.

Key Knowledge:

- Proficiency in full-stack development: Front-end technologies (HTML, CSS, JavaScript, Angular) and back-end development basics (Node.js, databases like MongoDB).
- Capable of building and maintaining responsive and accessible web interfaces.
- Understanding of Agile methodologies and proficiency with version control tools (e.g., Git).

Professional Skills:

- Comprehensive web development: Strong foundation in both front-end and back-end development.
- Problem-solving: Ability to dissect complex issues and devise effective and innovative solutions.
- Detail-oriented: Commitment to high-quality coding and design standards.
- Strong communication: Proficiency in articulating ideas and solutions to colleagues and clients.
- Adaptability: Quick to adapt to new technologies and changing project requirements.

Skills

Technology and Programming Knowledge:

- **Programming Languages:**
 - JavaScript: Proficient in both essential and advanced concepts, including asynchronous programming, closures, and ES6+ features.
 - NodeJS: Experienced in building scalable back-end applications and APIs.
 - C#: Knowledgeable in object-oriented programming principles and .NET framework.
- **Front-End Development:**
 - HTML5 & CSS: Skilled in creating responsive and visually appealing layouts.
 - Sass & LESS: Efficient in using CSS pre-processors for better style management.
 - Bootstrap: Experienced in utilizing Bootstrap for rapid and responsive design.
- **Frameworks and Libraries:**
 - Angular (versions 12/14): Proficient in developing dynamic single-page applications, familiar with concepts such as dependency injection, observables, and Angular Material.
 - RxJs: Skilled in reactive programming for handling asynchronous data streams.
 - NgRx: Experienced in state management for Angular applications.
 - Reactive Forms: Knowledgeable in building complex forms with custom validation.

- ReactJS: Basic understanding and practical experience in developing interactive UIs.
- **Web Design:**
 - Figma Essentials: Competent in creating wireframes and prototypes to visualize web designs.
- **Build Systems:**
 - Gulp & Parcel: Experienced in automating tasks such as minification, compilation, and browser refreshing.
- **Version Control Systems:**
 - Git & GitHub: Proficient in version control for maintaining code quality and collaboration.

Professional Attributes:

- Problem-Solving: Passionate about tackling complex challenges and finding innovative solutions. Experience in dissecting problems and implementing effective strategies in software development.
- Learning Agility: Fast learner with an aptitude for quickly grasping new technologies and concepts. Dedicated to continuous self-improvement and staying abreast of industry trends.
- Analytical Skills: Strong analytical abilities, adept at data analysis, debugging, and troubleshooting. Ability to approach problems methodically and logically.
- Work Ethic: Highly professional and committed to delivering high-quality work. Recognized for dedication, reliability, and the ability to thrive under pressure.
- Attention to Detail: Meticulous and thorough in all aspects of work, from coding to documentation. Ensures that all tasks are completed with precision.
- Interpersonal Skills: Sociable and collaborative, effective in team environments. Known for positive attitude and ability to motivate peers.
- Result-Oriented: Driven by a desire to achieve goals and deliver tangible outcomes. Consistently seeks ways to improve processes and enhance productivity.

Education and Training

FreeCodeCamp - Online, USA

- Full Stack Developer Online Certificate
- Information Technology, Expected Completion: 06/2022
- Key Topics: Responsive Web Design, JavaScript Algorithms and Data Structures, Front End Development Libraries

GoIT Academy - Ukraine

- Full Stack Developer Online Certificate
- Information Technology, Expected Completion: 10/2022
- Key Topics: Comprehensive Full Stack Developer Training
- Note: Anticipate graduation delays due to the war in Ukraine

Professional Development:

- Began in 2020 with a focus on Full Stack Web Development.
- Committed to continuous learning and skill enhancement in the field of Information Technology.

Vladivostok University of Economics and Services - Vladivostok, Russia (partially completed)

- Bachelor's Degree in Information Technology, 06/2005
- Completed 3 of a 5-year program
- Courses completed: Mathematical Logic and Algorithm Theory, Discrete Mathematics, Prototyping and Design of Interfaces, Algorithms and Data Structures on Pascal, C Information Security and Data Protection

Experience

Internship | 08/2022 - 03/2023

Lixar BDO Canada - Ottawa, Canada

- Successfully completed a 6-month internship within BDO Consulting-Technologies Application Development department.
- Played a key role in the development team for the "Kiosk V.3.1 Alberta / Ontario National Collision Report Service" (<https://accsupport.com>), contributing to both frontend and backend components.
- Actively involved in coding and optimizing features for the Kiosk application, using Angular for frontend development, ensuring responsive and user-friendly interface.
- Utilized Angular Reactive Forms to create dynamic forms that adapted to user input, enhancing overall user experience.
- Employed Angular Material to implement a consistent, modern design across various components of the application.
- Gained hands-on experience with version control systems like Git, ensuring smooth collaboration and code management.
- Participated in the Enmax project, where I was responsible for redesigning the frontend for a mobile application, focusing on cross-platform compatibility and user engagement.

Retail Business Owner | 12/2018 - 03/2022

'Amaranth' Health Products & Food Store - Sochi, Russia

- Managed all aspects of business operations, including financial management and daily activities.
- Sourced new suppliers to procure high-quality products, enhancing offerings to maintain a competitive edge in the market.
- Established pricing structures to optimize profitability while maintaining customer satisfaction.
- Provided personalized assistance to customers, answering inquiries and offering knowledgeable advice on products.
- Utilized social media platforms for business promotion, effectively generating increased revenue.
- Conducted interviews, trained, and supervised employees, fostering a productive and positive work environment.

Wholesale Trade Associate & Consultant | 03/2008 - 07/2018

International Trading Company - China

- Collaborated with international customers, providing expert guidance and advice for a wholesale company.
- Assisted customers in selecting merchandise that best fit their needs and efficiently completed orders.
- Sourced merchandise from various Chinese factories and conducted thorough quality assessments to ensure compliance with standards.
- Carefully packaged merchandise, verified customer orders, and prepared labeling and documentation to avoid shipment delays.
- Managed the shipment of parcels throughout China and to other countries, ensuring timely and accurate delivery.
- Actively promoted the business on social media platforms, increasing brand visibility and customer engagement.

IT Assistant | 07/2003 - 09/2004

Preobrazhenskaya Base Trawler Fleet "PBTF" - Vladivostok, Russia

- Successfully installed and configured a corporate Local Area Network (LAN) to enhance company-wide communication and data sharing.
- Prepared and maintained local databases and servers, ensuring data integrity and accessibility.
- Installed, configured, and set up personal computers (PCs), providing reliable technological resources for employees.

Interests

In my spare time, I actively engage in a variety of hobbies that enhance my creativity and physical well-being. I am passionate about playing ice hockey, which not only keeps me physically active but also teaches me the importance of teamwork and strategy. I also have a deep appreciation for music; I collect and mix music on vinyl records, enjoying the rich sounds and the art of creating unique soundscapes. Additionally, I am an avid reader, which allows me to continually

expand my knowledge and perspectives. To connect with nature and maintain my physical fitness, I frequently go hiking and relish the opportunity to travel and explore new places and cultures.
