PROFESSIONAL EXPERIENCE

Pixieset - Full-stack Developer

April 2022 - September 2025 | Vancouver, BC

- Maintained and optimized core platform features including login, dashboard, and account settings.
- Migrated email functionality from **Yii** into its own **Laravel** service.
- Integrated **Google** and **Apple Single Sign-On** as an alternative to logging in with an email and password

- Integrated email address normalization to deter spammers from creating multiple accounts.
- Added unit tests to maintain coverage.
- Used **PHP/Laravel/Bootstrap/jQuery** as the stack, with PHPStan to maintain code quality.
- Resolved CI/CD coverage reporting issues within **Bamboo** pipelines to maintain consistent build quality

Government of British Columbia - Full-stack Developer

March 2018 - April 2022 | Victoria, BC

- Developed and maintained the **Transportation Fuel Reporting System (TFRS)**, streamlining credit management between fuel suppliers by implementing a spreadsheet component to allow users to copy and paste their data from an **Excel** spreadsheet into a web form.
- Acted as a team lead for the **Zero Emission Vehicle Act (ZEVA)** project.
- Managed tasks, while coding and coaching another developer.
- Used **Python/Django/React** as the stack

AggregatIQ - Full-stack Developer

April 2015 - March 2018 | Victoria, BC

- Developed and maintained a large-scale data-driven political outreach platform supporting voter engagement tools, robocalling, and campaign analytics.
- Developed cross-platform app via **Cordova** for **iOS** and **Android** with push notifications, **Twilio VoIP**, and **Firebase** integrations.
- Used **PHP/Laravel, Angular, MySQL** and **MongoDB**.

ExcelSystems Software Development, Inc - Full-stack Developer

April 2008 - April 2015 | Sidney, BC

- Maintained and extended enterprise web applications using **PHP** and proprietary **Websmart ILE**.
- Built Chrome extensions for label printing and device connectivity via serial ports.
- Integrated e-commerce and logistics APIs including **Authorize.net**, **CyberSource**, and **UPS Web Services**.
