WORK EXPERIENCE

Desktop Support Technician

EVR (Contract via Procom) | Sparwood, BC

May. 2025 - Nov. 2025

- Supported EVR's enterprise migration initiative by working late night shifts to transition user systems, upgrading from Windows 10 to Windows 11, installing required applications, and verifying readiness for next-day use.
- Delivered day-to-day technical support through both in-person and remote channels, resolving hardware, software, and connectivity issues submitted via tickets or walk-ins.
- Adapted to shifting operational needs, providing coverage for both migration tasks and daytime user support to ensure consistent IT service delivery.

IT Support Analyst - Coop

Lethbridge Family Services | Lethbridge, AB

Sep. 2021 - Sep. 2023

- Provided technical support for both remote and in-person users.
- Configured and imaged new devices for deployment.
- Managed mobile devices using Bell's Enterprise Mobility Management platform for tasks such as assigning phone numbers, issuing resets, and overseeing device operations.
- Managed user accounts using Active Directory, including account configuration and password resets.
- Managed devices and system administration/remote task deployment via Dell KACE K1000 Management Appliance.
- Remote support using Microsoft Teams and DameWare Remote Everywhere.

EDUCATION

B.Sc Computer Science

University of Lethbridge | Lethbridge

2017 - 2024

Completed course-work towards degree, one semester remaining. Looking to gain work experience and financial stability before returning to complete my degree.
