CANDIDATE STATEMENT

I'm a Canadian certified, versatile, motivated, broadly-skilled, passionate and experienced Full-Stack Graphics/Web Designer & Developer by troubleshooting, and excited to shift from one discipline/task/client to another fairly seamlessly and willingly day to day based on client needs and management priorities. I'm comfortable and well-versed in communicating directly with clients via phone and email on a regular basis.

Since 2003, I responsibly design, develop and maintain dynamic websites in collaboration with cross-functional teams to ensure the website meets client requirements and provides a seamless user experience; strong understanding of responsive design principles and agile methodologies; familiar with SEO best practices; professionally capable in template / theme and extension / plugin development; experience with API integration; proficient in PHP, MySQL, HTML5, CSS3, JavaScript, etc.; skills in debugging, troubleshooting, and cross-browser compatibility; knowledge of web security and SEO principles; excellent team player with strong communication skills; experience in Jira software, Google search console, Google analytics and various SEO tools; excellent problem-solving skills and attention to detail; effective communication and collaboration skills to work independently and in a team environment.

I'm a professionally skilled, well trained and experienced Web Design & Development Director to lead a team of developers and designers, overseeing the strategy, architecture, and execution of websites and web applications, ensuring projects align with business goals, budget, and quality standards, acting as a technical leader bridging business needs with technical implementation for complex digital products.

I'm an experienced SEO specialist offering to optimize your website to improve its search

engine rankings, organic traffic, and overall online visibility. I have hands-on experience with on-page SEO, technical SEO, and content optimization for CMS & front-end websites. I have the proven experience optimizing websites to achieve measurable SEO growth with white-hat SEO technics. I'm experienced with popular SEO tools. I can be responsible to conduct keyword research, optimizing meta titles, meta descriptions, headings, URLs, and improving internal linking structure; do technical SEO tasks such as site speed optimization, mobile responsiveness, fixing crawl errors, schema markup, XML sitemaps, and ensuring proper indexing in Google Search Console. I have the proven ability to analyze website performance using Google Analytics and Search Console, identify issues, and provide clear recommendations for improvement. I understand Google's latest algorithm updates, and can deliver long-term, sustainable results. I work independently. I have clear communication and timely reporting.

I'm adaptable, creative, self-driven, and have a strong foundation in writing and digital platforms. I have hands-on experience in SEO, content marketing, and digital strategy. I'm passionate about digital content, market trends, etc. I'm a performance-oriented Web Professional for planning, creating and optimizing SEO-driven strategic content that resonate specific audience and supporting brand goals. I have over 15 years relevant experience with the following responsibilities:

- Plan and execute digital marketing campaigns across Facebook, Instagram, TikTok, and other platforms
- Develop and maintain a weekly content calendar aligned with brand goals and audience insights
- Research and write SEO-friendly blog articles, landing pages, and website content
- Plan and manage engaging social media content across platforms (Facebook, LinkedIn, Instagram, etc.)
- Conduct keyword research and make sure keywords are ranked with SEO friendly contents
- Monitor content performance using basic analytics tools and adjust strategies accordingly
- Collaborate with internal teams to ensure consistent branding, tone, and messaging

across all content

- Keep me up-to-date with emerging SEO trends, search engine algorithm updates, and digital content innovations
- Build and update WordPress websites using themes and Elementor
- Customize layouts, templates, and page designs
- Upload and format English website content accurately
- Assist with directory-based websites
- Learn and work with Crocoblock and GeoDirectory
- Coordinate with UK-based managers and the Bangladesh team
- Perform regular website updates and basic troubleshooting
- Design, Create, Implement, And Manage Websites Using Wordpress's Most Popular Builders, Elementor, Divi, Beaver, Thrive Builder, etc.
- Customize themes and develop custom plugins
- Optimize website performance and ensure SEO best practices
- Implement security measures and conduct regular security audits
- Manage website content and provide user training and support
- Collaborate with design and marketing teams to integrate digital strategies
- Debug and resolve compatibility problems, bugs, and errors
- Conduct thorough testing and troubleshooting
- Stay updated with the latest WordPress developments and Industry trends
- Develop, customize, and maintain WordPress websites and applications
- Design and implement new features and functionality
- Create custom themes and plugins to enhance website performance and user experience
- Ensure high performance and availability, and manage all technical aspects of the CMS
- Conduct website performance tests and monitor site speed and functionality
- Collaborate with design and marketing teams to ensure visual and functional consistency across projects

- Troubleshoot and resolve website issues and provide ongoing maintenance and support
- Stay up-to-date with the latest industry trends and technologies to ensure that solutions are current and effective
- Implementing SEO best practices to improve site rankings and visibility
- Optimize websites for maximum speed and scalability
- Ensure website security and data protection measures are in place.
- Write optimized code
- Craft and customize WordPress themes and plugins from scratch
- Perform API integrations to enhance website functionality
- Optimize websites for performance, scalability, and security
- Address and rectify bugs, ensuring compatibility across browsers and devices
- Collaborate in an agile team environment, contributing to all development phases
- WooCommerce implementation and enhancement
- Professionally capable to understand business requirements and translate them into technical needs
- Strong willingness to take responsibilities and take initiative for better performance
- Prioritize and manage technical requirements throughout the project life cycle

I'm also a dynamic and data-driven Growth Marketing Director to lead and integrate marketing initiatives with online sales strategies to bridge the gap between marketing and e-commerce, ensuring customer engagement across all channels. I have proven ability to make significant impact on rapidly growing company and build a high-performance marketing function from the ground up. I'm expert in defining brand identity, messaging, and service offerings, helping to reach and connect deeply with target audience, designing and executing impactful marketing campaigns, using data to enhance performance, and driving continuous improvement. I have over 15 years experience in marketing and e-commerce, comprehensive understanding of branding, and deep insight into consumer behavior. I excel in team leadership, cross-departmental collaboration, and delivering impactful solutions that drive business growth. I have proven track record in driving success through innovative

strategies and impeccable execution. I'm skilled in social media, digital marketing, and market analysis. I have expertise in project management, SEO, and brand management. I got strong communication and collaboration skills, with a detail-oriented approach. I'm passionate about leveraging technology and data to achieve results. I excel in managing budgets and vendors, ensuring compliance and achieving ROI. I adept at leading and motivating teams, with a focus on customer service and CRM. I'm continuously seeking new opportunities for growth and constantly pushing the boundaries of traditional marketing. My achievements include websites developed with 100% responsiveness and optimal loading speeds, successful resolution of all technical SEO issues using Google Search Console promptly, consistent improvement in website performance metrics, including page load times and user experience, SEO rankings maintained or improved through continuous optimization efforts, successful digital campaigns, increased brand awareness, lead generation, and establishing thought leadership. My personal interests include enterprising, constantly innovating, and implementing interest-based marketing. Also enjoy photography and videography for a well-rounded perspective.

I'm a qualified Information Retrieval Scientist since 2002 & Systems Engineer since 1997; professionally trained & experienced creative IT Director since 2010; certified & skilled Web Professional since 2005; actively seeking for Web developer role to utilize my skills, qualifications & experiences gained over 33 years globally.

I worked as an academic researcher, university teacher, institutional instructor, entrepreneur, consultant and corporate employee globally. I have **20 professional IT training certifications** including 'Entrepreneurship for IT Business' from **Canada**. My **PhD thesis outcomes** (academic book) are used in the MSc Course 'Computer Networks & Telecommunications' discipline at the CSE department of MIIT (state-owned & globally top-ranked university), Moscow, Russia. I have IEEE publication.

Since 2003, I have supported numerous Bangladeshi and Canadian businesses & non-profits notably Ahsanullah University of Science and Technology (AUST), Institute of Computer Science of Bangladesh Atomic Energy Commission, Humber College, Hi-Tech Institute, TV Ontario, ObusForme Ltd, Univeris Corporation, member agencies of the United

Way Toronto & York Region, etc. I, globally supervised and trained in educational institutions, research organizations and corporate offices to their departmental Heads, Scientists, Scientific Officers, Corporate Staffs, University Graduates, etc. In fact, I was nominated for the candidacy of IEB Award 2022 (IEB Medal by Prime Minister of Bangladesh).

I have proven experience for the jobs & responsibilities required. More importantly, I'm passionate about the positive change across the world and want to work for you to develop skilled and responsible professionals. I'm the exceptional leader to serve for the offered role to shape a lasting vision for advancing management education and research in a frontier market, and to lead the creation of a world-class school rooted in ethical leadership, academic excellence with innovation, entrepreneurship, social impact and sustainable development.

My educational background, skills, qualifications and personal preference are best fit to work for the offered role in a reputed workplace environment to grow professionally.

COMPUTER SKILLS

Operating Systems

Clients: Mac OS X 10.6 Snow Leopard, Windows 2000 Professional/ XP/ Vista/7, Red Hat: Linux 8.0/9.0, NetWare 5.1, OS/2 Warp 4, PC DOS 7, MS-DOS 6.22/7.1, etc.

Servers: Windows Server 2003 Web Edition, etc.

Local Web Servers: XAMPP for Mac OS X and Windows 1.7.3 (Apache, MySQL, PHP, phpMyAdmin), etc.

Google Apps for nonprofit and small business: Gmail, Google Calendar, Google Sites, Google Docs and Google DFP small business

Email marketing, social media, online survey and event marketing tools: Constant Contact, MailChimp, dotMailer, PHP-list, etc.

Content Management Tools: Joomla, Drupal, Wordpress, Elgg, OSTicket, Web Calendar, etc.

Social networking Tools: LinkedIn, Facebook, Twitter, Google Calendar, YouTube, MySpace, Flickr, eSnips, Yahoo! 360°plus, Google Buzz, etc.

Search Engine Tools: Search Engine Composer, Google Webmaster Tools, Web Site Optimization Tools, Search Engine Position Tools, Page Rank Tools, etc.

Online Tools: Map Generator, Form Generator, Email Extractor, etc.

Time/project management tools: Basecamp, JIRA, Time Keeper, Toggl, etc.

Programming/Scripting Languages: HTML 4.0, DHTML, XML, CSS2, VB & JAVA Script, Ajax, PHP, ASP, ASPX, etc.

Database Applications: Foxpro, Dbase, MSSQL, mySQL, etc.

Shopping Cart: Magento, VirtueMart, Zen Cart, X-Cart, VP-ASP, OpenCart, Tomato Cart, AgoraCart, OS Commerce, etc.

FTP Clients: FileZilla, BulletProof FTP, CuteFTP, FAR Manager, etc.

E-mail Clients: Eudora, FirstClass, IncrediMail, Entourage, Outlook, Thunderbird, SquirrelMail, The Bat!, Lotus Notes, Windows Mail, etc.

Instant Messaging Clients: Google Talk, ICQ, meebo, Paltalk, Skype, Windows Live Messenger, Microsoft Office Communicator, Yahoo! Messenger, etc.

Web Browsers: Chrome, Firefox, IE, Opera, Safari, etc.

Helpdesk tracking software: Numara Track-It!, FootPrints, etc.

Resource management and scheduling software: WebCheckout 3.4.3

Domain name registration and web hosting services: cPanel Pro 1.0 RC1 (Domain Management, Site Builder, SohoLaunch, Template Express, FTP and Email Accounts setup

and management, Webmail, Spam Assassin, Forwarders, Auto Responders, Mailing Lists, Backups, File Manager, Logs, Subdomains, Addon Domains, Redirects, MySQL, phpMyAdmin, Fantastico De Luxe), Affiliate programs, etc.

Microsoft: Internet applications (Internet Explorer, Windows Mail, Windows Live, Windows Live Messenger, Bing search engine), Visual Web Developer 2008 Express Edition, Microsoft Office Suites (FrontPage, Word, Excel, PowerPoint, Access, MS Project, Visio), Exchange Server , GIF Animator 1.0, etc.

Adobe: Adobe Creative Suite 4 Master Collection (Photoshop, Illustrator, Flash Pro, InDesign, Acrobat 8 Pro, Dreamweaver, Fireworks, Contribute), Framemaker 8.0, etc.

Ulead/Corel: Digital imaging software: PhotoImpact v.10, v.11, v.12, Animation Software: GIF Animator 5, Raster editing software: Corel Photo-Paint .12, v.13, JASC Paint Shop Pro 7, Ulead Photo Express 6, graphics editing software: CorelDraw v.12, v.13, etc.

Xara: Designer Pro 6, Xara3D 6, Menu Maker 1.1, Webstyle 4.0, etc.

CoffeeCup: Web Form Builder, Photo Gallery, Flash Menu Builder, Web JukeBox, GIF Animator, RSS News Flash, etc.

Sothink: SWF Decompiler, Logo Maker, DHTML Menu, JavaScript Web Scroller, FLV Converter, Photo Album Maker, Flash Maker & Converter Suite, etc.

logo, banner, brochure, flyer, business cards Tools

Page layout software: QuarkXPress v.6, v.5, etc.

Utility software: Norton Utilities for DOS and Windows, Norton Commander (DOS v.5.0, Windows 2.0), Volkov Commander for DOS, Win RAR, WinZIP, etc.

Antivirus+Antispyware Software: Dr. Web, Kaspersky Anti-Virus, McAfee VirusScan, Microsoft Security Essentials, Symantec Norton AntiVirus/Norton 360, Trend Micro Internet Security, CA Yahoo! Anti-Spy

Firewall software: Kaspersky Internet Security, Norton 360, Trend Micro Internet Security, Windows Firewall, ZoneAlarm, etc.

Data Recovery Software: GetDataBack for NTFS, etc.

Disk Cloning/Imaging Software: Optical discs (Roxio Creator, Nero Burning ROM, MagicISO), Hard disks (Norton Ghost, Microsoft Virtual PC), etc.

Remote desktop software: Symantec pcAnywhere, TeamViewer, WebEx, Remote Desktop

Services, etc.

Software/Utilities: Crystal Reports 8.5, ACCPAC 5.3A, Commerce Desktop, enVivo!CMS Classic v3.5 Pro, SnagIT 8, Lenel OnGuard 2006, VIMAS Web Imaging, etc.

TECHNICAL SKILLS & COMPETENCIES

- **Front-End Development** - proficient in HTML, CSS, and JavaScript, with a keen eye for design elements such as layout, color, and typography; build, structure and manage WordPress website; user interfaces; using HTML, CSS, and JavaScript to create and maintain visually appealing and user-friendly websites; convert comprehensive graphic layouts and wireframes into functioning WordPress websites and web pages; ensure responsivity and optimal performance of websites across various devices and browsers; collaborate with designer to implement design elements effectively while being able to carry the look and feel of a website's home page design into secondary pages without direction; add content to websites as necessary including text, images and videos; implement page sections and elements while adhering to SEO best practices and accessibility standards
- **Back-End Development** - utilize PHP and MySQL to develop scalable and secure back-end functionalities and database-driven solutions for WordPress websites; integrate third-party APIs and programmatic web services as needed; build custom WordPress modules, plug-ins and themes, and customize commercial WordPress plug-ins and themes as needed
- **Hosting, Domains, and Email** - utilize client domain name registrar accounts to transfer domains and customize/change DNS records; work with server provider's support team to troubleshoot and correct server issues; support and troubleshoot client hosted email inboxes, including setup on devices and deliverability issues; migrate websites and email messages/ inboxes from server to server when needed; perform routine maintenance using provided tools including performing backups, upgrading plug-ins, malware scans, and other tasks
- **Site Maintenance and Development** - regularly maintain existing WordPress sites and take an active role in planning and executing new site features and functionalities
- **Interface Development** - translate visual designs into functional interfaces, ensuring

that the execution aligns with established branding and design guidelines with meticulous attention to detail

- **User Experience Enhancement** - utilize motion and user feedback to create fluid and engaging user experiences, optimizing performance for various client devices, from desktop computers to mobile devices
- **Web Standards** - good understanding of web standards, responsive design, and core web vitals
- **Browser Testing** - experience in testing and debugging websites across multiple browsers and devices
- **CSS Expertise** - comfortable with CSS preprocessors like LESS and SASS, as well as CSS frameworks like Bootstrap and Foundation
- **Content Management Systems** - knowledge of other content management systems (e.g., Optimizely, Sitefinity, Contentful, Sanity, etc.)
- **Version Control** - experience with Git source control and the ability to work effectively in a team environment
- **Project Management** - familiar with feature and bug-tracking tools like Jira
- **Adaptability** - comfortably handle changing project requirements, adapt to shifting project directions, and provide alternative project plans or contingencies when necessary
- **Time Management** - manage your time efficiently without the need for daily oversight, ensuring timely project delivery
- **Issue Management** - identify and elevate project issues early in the development process, and recommend plans of action or contingencies to maximize project options
- **Communication, Support, and Cross-Team Collaboration** - collaborate with project leads, project managers, visual designers, software engineers, functional architects, and account managers to plan, estimate, and define project requirements; act on and communicate directly with clients for support requests and for current projects through email, phone, and video communication; answer support telephone line and troubleshoot requested issues for clients accordingly; engage in team meetings to provide updates on work and communicate issues and ideas; use project management tool to record tasks, track time spent on projects and ensure budgets

are not exceeded; collaborate with other developers to share knowledge and best practices; participate in client meetings and provide time estimates on how long client requested work will take; effectively use various communication channels (e.g., Slack, email, phone) to drive project progress and ensure clarity; proactively communicate to maximize problem-solving options; collaborate with cross-functional teams to drive decision-making processes and ensure alignment across various project aspects

- **Continuous Learning** - strong desire to grow technical skills and stay updated on emerging technologies in web development
- **Skills & Expertise** - Elementor, Elementor Pro, Web Design, Web Developer, Web Developer/ Web Designer, Web Development, Website Design, WordPress, WordPress customization, WordPress Developer, HTML / CSS, GeoDirectory, Crocoblock / JetEngine, Elementor, etc.

AWARDS / HONOURS

Postdoctoral (DSc) Scholarship

Awarded Russian Government Scholarship for Postdoctoral (D.Sc) study & research at Moscow Power Engineering Institute (Technical University) – MPEI (TU), Moscow, Russia, 2002 - 2005

Doctoral (PhD) Scholarship

Awarded Doctoral (PhD) Scholarship by Moscow State University of Communication Means (MIIT), Moscow, Russia, 1998 - 2002:

Certificate of Achievement

PhD thesis outcomes are used in the 'Computer Networks & Telecommunications' discipline at the CSE department of MIIT, Moscow, Russia

Knowledge-base Web Portal

Researched, developed and maintained a specialized web portal for the railway professionals

Technical Publications

One academic book (methodical training aids) and four technical papers within this duration

RBCCI Scholarship

Awarded Russia-Bangladesh Chamber of Commerce & Industry (RBCCI) scholarship for

success in study, Moscow, Russia; October 1999-2000

Rapid Reading Program

Received acknowledgement in competitive 'Rapid Reading Program', World Literature Centre, Bangladesh, 1988

PERSONAL ATTRIBUTES / HOBBIES	I'm energetic, self-respecting, reliable and responsible with intelligence, humor and appreciation. I appreciate honesty and would like to keep a positive attitude. I enjoy spending time with friends, as well as by myself, getting to know new people culture, listening music, reading books, watch movies, going picnics, etc. I enjoy the simpler things in life. I do wrong to none. Other hobbies are computing, social work, sports, traveling, etc.
