

Evelyn Trail

Web Developer

Calgary, AB | +1 403-397-4942 | evelyn.t@nxtrail.ca
linkedin.com/in/evelyntrail | github.com/evelyntrail

Summary

Front-end developer with a focus on building interactive web applications using React, TypeScript, and Styled-Components. Skilled in translating design concepts into responsive, visually appealing interfaces. Experienced in optimizing web performance and ensuring cross-browser compatibility.

Work Experience

Part-time Mobile App Developer - Total Instant Lawns Ltd. | Ottawa (Remote) Sep 2024 - Now

- **Technologies:** React Native, TypeScript, Salesforce CRM, AWS S3, Gemini AI
- **Integration & AI:** Added a Gemini-powered interface bridging the mobile app and Salesforce CRM, allowing users to query complex database records via natural language.
- **UX/UI Redesign:** Translated creative concepts and user requirements into code, redesigned user interfaces using Styled-Components for a visually appealing, responsive experience.
- **Maintenance & Testing:** Maintained libraries to ensure compatibility and stability. Conducted thorough debugging and performance optimization to ensure maximum speed and scalability across devices.
- **Feature Development:** Developed and deployed new features, including user profile management, settings configurations, and safety consent.
-

Senior New Model Project Manager - Toyota Motor Thailand Apr 2018 - Apr 2022

- **Vendor & Scope Management:** Coordinated external suppliers and internal engineering teams to launch new vehicle models. Acted as the central point of contact to resolve design conflicts and ensure parts arrived on time.
- **Project Lifecycle Management:** Managed the full project timeline from initial design to mass production (SOP). Ensured all projects launched on schedule and within budget by tracking critical milestones.
- **Quality & Root Cause Analysis:** Reviewed engineering specifications and led cross-functional teams to investigate defects. Implemented "countermeasures" to fix deviations and ensure 100% quality compliance.

Projects

Aismartresume.com - Webapp AI-Powered ATS Resume Tool Aug 2025

- Developed a full-stack web application (Next.js/Node.js) that helps users generate tailored resumes and cover letters aligned with job descriptions.
- Developed a responsive front end using Tailwind CSS to ensure a seamless user experience across mobile and desktop.
- **Agentic AI & LLM:** Integrated Google Gemini API to parse resumes and analyze job descriptions for ATS keywords, demonstrating strong understanding of LLM fundamentals.
- **Backend & Payments:** Integrated Firebase for authentication/storage and implemented a subscription system using Stripe webhooks.
- **Marketing Tech:** Configured Google Tag Manager, Google Ads, and SEO meta tags to optimize search engine visibility.

VioVault - Budgeting Webapp with OCR Receipt Scanning Feature Apr 2024

- Built a full-stack React application with OCR technology (Verify API) to automate receipt scanning and spending tracking.
- **TDD & Automation:** Performed automated testing using Selenium, Playwright, and Postman to ensure feature reliability and catch bugs early.
- **Search Optimization:** Integrated Algolia API to enable fast substring search across the transaction database.
- **Cloud Infrastructure:** Utilized Firebase Cloud Functions for backend logic and Firebase Auth/Storage for secure user data management.

Skills

Languages:	Python (Fundamentals), JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Frameworks & Libraries:	React, React Native, Next.js, Node.js, Tailwind CSS, Styled-Components
Methodologies & Concepts:	Responsive Design, UI/UX Principles, Cross-Browser Compatibility, TDD, OOP, Agile/Scrum,
Tools & Cloud:	Git, Docker, Firebase (Auth, DB, Functions), AWS (S3), Postman, Selenium
APIs & Integrations:	RESTful APIs, Stripe & Square Payment APIs, Google Gemini AI API
Marketing Tech:	Google Tag Manager, Google Ads, Foundation SEO Practices
Professional Skills:	Stakeholder Management, Client Communication, Teamwork

Education

The Southern Alberta Institute of Technology (SAIT)	Jan 2023 - Aug 2024
Diploma in Software Development	

King Mongkut's Institute of Technology	Apr 2014 - Mar 2018
Bachelors in Industrial Engineering	

Certificates

Scala and Spark for Big Data and Machine Learning (Udemy)	Nov 2024
