EDUCATION

2023 – 2025

DOUGLAS COLLEGE

- Diploma in Computer Science

Experience & Projects

Web Developer (Part-time)

Jan 2024 – Present

Golestan Foundation — Remote

Completed concurrently with Computer Science Diploma

- Developed a multi-user admin panel serving 19 organizations to collect, store, and manage their monthly financial reports.
- Replaced Google Forms with a structured database-driven solution, reducing data entry errors and enabling historical tracking across 19 organizations.
- Implemented CRUD functionality, authentication logic, and relational database design using PHP and Laravel.
- Integrated server-side DataTables with AJAX for searchable, paginated data views.
- **Stack:** PHP, Laravel (Routing, Middleware, MVC), MySQL, REST-style workflows.

Web Developer Intern

Mar 2020 – Jan 2021

Almas Teb Rayan — Tehran, Iran

Completed concurrently with High School Diploma

- Gained hands-on experience working with multiple backend frameworks, including Django (Python), PRADO (PHP), and Laravel (PHP).
- Worked with MVC architecture, database-driven applications, and back-end logic for real-world use cases.
- Collaborated with a development team in a production environment to meet project milestones.
- **Stack:** Python (Django), PHP (Prado & Laravel), MySQL.

Programming Instructor

Sep 2020 – Oct 2020

Almas Teb Rayan — Tehran, Iran

Completed concurrently with High School Diploma

- Instructed 7+ pre-teen students in Java and Scratch using project-based learning to build problem-solving and logical thinking skills.
- **Skills:** Communication, Technical explanation, Problem-solving.
