

PROFESSIONAL SUMMARY

Full-stack developer and technical project manager with 10+ years of international experience delivering web, mobile, and e-commerce solutions. Proven track record of launching 30+ digital products, including custom e-commerce platforms generating over \$1M in sales. Skilled at bridging business goals with technical execution through agile and waterfall methodologies, stakeholder management, and cross-functional leadership.

EDUCATION

- Bachelor's in Computer Science (2006) from University of Western Ontario
- Liberal Studies Diploma (2003) from Fanshawe College

WORK EXPERIENCE

Technical Project Manager - LabX Media Group Inc. (Oct 2022 - July 2025, Canada)

- Led cross-functional development teams, defined technical requirements, and managed agile sprints for the IFLScience brand.
- Oversaw releases, site performance/uptime, SEO improvements, and prioritized tech debt while managing developers, overseeing quality assurance and reporting to stakeholders.

Independent Freelance Project Manager, Mobile/Web Developer (Remote)

- Leveraged freelance mobile and web projects to fill employment gaps and maintain professional continuity across an evolving technological industry.
- Defined project specs, aligned branding and business goals, deliver solutions while respecting timelines, budgets, and client communications.

CTO & Co-founder - Tourbrat Inc. (Oct 2015 – Dec 2019, Seoul)

- Co-founded and guided an event ticketing startup, bridging business and tech teams to deliver innovative products in a fast-paced environment.
- Defined technology strategy, enforced best practices, and fostered continuous improvement and pragmatic innovation.

Digital Director - DesignHouse Inc. (Jan 2013 – Jun 2015, Seoul)

- Directed development, design, and marketing teams to build user-focused web/e-commerce platforms for 20,000+ users with \$850K+ in purchases.
- Developed systems and implemented analytics/social media solutions to optimize engagement and performance.

Lead Developer - Starmedia Communications (Apr 2011 – Dec 2012, Montreal)

- Led project delivery and team collaboration on diverse web initiatives, fostering client relationships and adapting to technology trends.
- Guided technical staff and promoted efficient, problem-solving approaches in development cycles.

STRENGTHS, INTERESTS & LIFE EXPERIENCES

- Tech-savvy, energetic, and proactive project leader.
- Skilled communicator and collaborator across all levels.
- Exceptional time management, analytical, and problem-solving abilities.
- Extensive travel across Africa, Asia, and Europe; completed challenging treks in Spain and Nepal.
- Worked in tech while living for 10 years in Seoul, South Korea.
- Passionate about technology, film, sports, and trivia.
