

DEV CHHETRI

Web Designer & Developer

Hamilton, ON | dev.chhetri.395@gmail.com | [Portfolio](#) | [GitHub](#)

SUMMARY

Front-end developer with 2+ years of hands-on experience building responsive web applications using React, JavaScript, and modern CSS frameworks. Skilled in creating component-based architectures, optimizing performance, and translating designs into clean, maintainable code. Proven ability to deliver user-focused solutions in both collaborative team environments and independent projects.

TECHNICAL SKILLS

Languages & Frameworks:

HTML5, CSS3, JavaScript (ES6+), React, Node.js, Tailwind CSS, Bootstrap

Tools & Technologies:

Git/GitHub, Vite, Webpack, Netlify, Firebase, RESTful APIs, Figma, Adobe XD, VS Code

Practices:

Responsive Design, Component-Based Architecture, Performance Optimization, Version Control, SEO Best Practices

PROFESSIONAL EXPERIENCE

Web Designer & Developer (Contract) | Bombay Touch Restaurant – Stoney Creek, ON

November 2024 – January 2025

- Delivered a complete website redesign aligned with refreshed brand guidelines, managing project from discovery through launch
- Designed and developed fully responsive marketing site using Duda CMS with custom CSS and JavaScript enhancements
- Implemented image optimization, lazy loading, and caching strategies to achieve <2s page load times on 4G connections
- Configured local SEO settings (schema markup, meta descriptions, Google Business integration) to improve search visibility
- Provided technical training and ongoing support to enable non-technical staff to manage content independently

QA Analyst / Playtester | Ubisoft Toronto – Toronto, ON

August 2021 – January 2024

- Collaborated with cross-functional development teams to identify and document UI/UX defects for AAA game titles
- Provided detailed feedback on user interactions, interface clarity, and accessibility considerations
- Conducted systematic regression testing across iterative development cycles in Agile sprint environments

DEVELOPMENT WORK & PROJECTS

FitSync – Fitness Tracker Web App (Personal Project)

React • Tailwind CSS • React Router • Vite • Netlify | <https://fitsyncdemo1.netlify.app/>

- Designed and developed a mobile-first fitness tracking interface with multi-page navigation and interactive dashboard components
- Built modular, reusable React components following component composition patterns and props-based data flow
- Implemented React Router for client-side routing with dynamic route parameters and protected route logic
- Optimized build performance using Vite, achieving sub-2-second load times through code splitting and lazy loading

GenStarMap – Procedural Star Map Generator (Academic Project)

p5.js • JavaScript • Procedural Generation | <https://devchhx9.github.io/GenStarMap/>

- Built an interactive 2D star map generator with procedural positioning using seeded randomization algorithms
- Implemented smooth camera controls (pan, zoom) with transition animations between galaxy and detailed star views
- Developed star selection system using collision detection and interactive UI for displaying star names and properties
- Created dynamic naming system combining real star names (Proxima, Sirius, Vega) with Greek letter suffixes

Discover Hamilton – City Guide Web Application (Personal Project)

JavaScript (ES6+) • HTML5 • CSS3 • Netlify | <http://discoverhamilton.netlify.app/>

- Built a location-based web application showcasing local attractions, restaurants, and events with interactive map integration
- Implemented vanilla JavaScript for DOM manipulation, event handling, and asynchronous data loading
- Applied lazy loading for images and optimized asset delivery, achieving 90+ Lighthouse performance scores
- Structured semantic HTML with accessibility features (ARIA labels, keyboard navigation) and SEO-optimized meta tags

Bombay Touch Restaurant – Marketing Website (Client Project)

Duda CMS • Custom CSS • JavaScript | <https://www.bombaytouchstonecreek.com/>

- Designed and developed a fully responsive restaurant website with custom branding, online menu integration, and reservation system
- Customized platform templates using custom CSS and JavaScript to match brand guidelines and enhance user interactions
- Created CMS training documentation and conducted staff training for ongoing content management without developer support

EDUCATION

York University – Toronto, ON

Bachelor of Arts/Science in Digital Media | 2022 – 2026

CERTIFICATIONS & ADDITIONAL WORK

- Introduction to UI Design – Coursera
- Built experimental interactive experiences with p5.js and Unity as passion projects
