Work Experience

Hardware Technician

2022

City of London – London, ON

- Collaborated with other teams to diagnose and troubleshoot networking issues for end devices and responded to Service Desk calls for computer equipment failures
- Independently traveled to remote offices to provide on-site support for hardware setup, maintenance, and troubleshooting
- Performed preventative maintenance on computer and user-based equipment, installed and maintained data network wiring systems, and assisted City staff with A/V equipment setup and operation for presentations, along with other assigned duties

Sales Representative

2019

MindGeek – Montreal, QC

- Successfully handled and resolved live interactions with multiple clients simultaneously including concerns regarding billing inquiries and refunds on time
- Cross-sold promotional offerings to increase MindGeek's brand exposure

Software Testing (Quality Assurance)

2018

GlobalStep – Montreal, QC

- Tested all areas of two shipped AAA video games under team lead guidance to ensure functionality, accuracy, and quality; followed defined performance criteria and quality standards
- Identified and documented bugs affecting user experience; collaborated with QA team members to ensure full coverage and contribute to final release readiness

Educational Background

Computer Programming and Analysis – Ontario College Advanced Diploma

2020 - 2023

Fanshawe College - London, ON
