Summary

As an IT professional with over 5+ **years of hands-on** experience in **Software Developer** I am working as a Frontend developer for **BMO Canada** (through **Capco** Canada). Capability of driving critical projects independently and possess strong problem-solving skills which are key features of a web developer. My strength is in building APIs with **Java, JavaScript and Node.js**, and in designing UI/UX using latest JavaScript library such as **Angular (framework), React, AEM (Adobe Experience Manager) and HTML5**.

Professional Field

- **API Development:** 7+ years of experience with UI/UX designing and API development using **Javascript, Node.js** and **AWS**. Worked with microservices environment.
- **UI/UX Development:** Experience with JavaScript frameworks such as **Angular.js** for front end development and have experience in CSS frameworks such as **Styled Components/ SCSS/ Bootstrap**. Having experience in area of web technologies like **HTML/CSS, Python and Node.js**.
- **Test Automation:** Experience with Junit test automation frameworks such as **selenium** for Java, **Jest/Karma** for Angular. **Cypress** for E2E testing.
- **Web Services:** HTTP, REST API, JQuery, JavaScript.
- **Operations:** Follow Github for version control, Visual Studio/Brackets for text editor, use **Jenkins, Docker** with **production deployment** pipeline set up. **Sonarqube** for code quality automation.

Work Experience

Consultant (Front-end Developer)

Jan-2023 to Present

BMO Canada || Capco, ON, Canada

Stack: MEAN Stack (Angular (version 19), Typescript, Ionic Framework)
