Technical Projects

Capstone

<https://atomicdiner.bcitwebdeveloper.ca/>

- WordPress, WooCommerce, GitHub
- Final project for our program, combining all major skills from web development, content management, team collaboration, and project management.
- Worked in team environment, coordinating tasks and handling files through GitHub.
- Gained hands-on experience in working with a team to build a fully functional website. With workflow, from planning to deployment and presentation.

Web Portfolio

<https://vincefontabla.com/>

- React, Sass, WordPress
- Built using React.js for the front end, with WordPress as headless CMS.
- Customized WordPress to manage all content with the use of Advance Custom Fields.

Movie Cache: React Movie Database

<https://movie-cache.vincefontabla.com/>

- React, Sass, Adobe XD, Adobe Photoshop
- Developed using React.js as a final project in Web Scripting 3 course.
- Integrated TMDb API to fetch display movie data with live search functionality.
- Used React hooks efficiently to manage and handle movie data.
- Designed to be fully responsive that work smoothly across devices.

Ancient Echoes: JavaScript Game

<https://vincefontabla.com/ancient-echoes/>

- HTML, CSS, JavaScript
- Developed a Dota 2 hero-themed card matching game that focused on logic, state management, and user interaction.
- Implemented shuffling array, matching mechanics, and score tracking.

Experience

Web Development

January 2025 – July 2025

Student – British Columbia Institute of Technology

- Gained practical experience in web development through hands-on projects across multiple courses.
- Collaborated with a team to create a mockup website and presentation in Web Development 2 course.
- Built and managed a database using PHP and MySQL in Web Scripting 2 course.
- Developed a custom theme in WordPress in Content Management System course.

Nurse Assistant

December 2022 - Present

Casual – Haro Park Centre Society

- Assisted and supports residents with daily activities.
- Provided emotional support and companionship to residents.
- Monitored and recorded health concerns and reported to nurses.
- Assisted nursing staff during medical procedures.
- Collaborated with nurses and other healthcare teams to implement personalized care plans.
- Participated in training sessions for healthcare and emergency response protocol.
