North York, ON | (647) 221-8213 | janinem.usana@gmail.com | www.linkedin.com/in/janine-usana

PROFESSIONAL SUMMARY:

Web Developer with one year of full-stack experience building web applications using React.js, Node.js, Express.js, and PostgreSQL. Known for taking ownership, collaborating effectively across teams, and solving real-world problems in fast-paced, small-team environments.

TECHNICAL SKILLS:

- **Frontend Development:** HTML, CSS, Tailwind CSS, React.js
- **Backend Development:** JavaScript (Node.js), Express.js, RESTful API Design
- **Databases:** PostgreSQL, MySQL and MongoDB (academic)
- **Project Methodology:** Agile/Scrum Methodology
- **Tools and Platforms:** Postman, Git, GitHub, VSCode, Chrome DevTools, Google Colab
- **UI/UX Design & Prototyping:** Figma, Draw.io, Photoshop
- **Office and Productivity:** Microsoft Office: Word, Excel, PowerPoint, Google Workspace: Docs, Sheets, Forms

WORK EXPERIENCE:

Junior Web Developer, Journeytech Inc., Parañaque, Philippines

July 2024 – July 2025

- Led full-stack development of an internal web-based Mobile Attendance Recording System (MARS), building React front-end components and Node.js/Express backend services with PostgreSQL.
- Investigated and resolved a persistent real-time parking in/out counter bug by identifying flawed SQL query logic and implementing an optimized solution in collaboration with QA and senior developers.
- Collaborated with mobile developers to deliver a CEO-requested feature within a 2-week deadline, ensuring seamless backend integration without disrupting existing functionality.
- Solely managed the web development of the system for over six months, later mentoring two junior developers and leading a structured project handover.
- Supported mobile developers by debugging API issues, simulating request payloads in Postman, and maintaining RESTful endpoints to ensure reliable cross-platform functionality.
- Prepared the application for production deployment through environment configuration and backend optimization; the system launched successfully shortly after departure.
- Earned recognition from company leadership for independently managing and delivering a key internal system as a junior developer.

Service Crew, Cinnabon Canada, Toronto, Canada

April 2018 – November 2023

- Delivered consistent customer service in a fast-paced environment, demonstrating reliability, attention to detail, and strong communication skills.
- Supported daily operations through multitasking and basic technical troubleshooting of back-office equipment.

EDUCATION:

Advanced Diploma, Computer Programming and Analysis

September 2020 – April 2023

George Brown College, Toronto, Canada

Bachelor of Science in Computer Engineering

May 2011 – May 2015

AMA Computer College Las Piñas Campus, Las Piñas, Philippines
